From: Custer, Sam
Subject: Dicamba Training
Date: Wednesday, January 17, 2018 8:40:41 AM
Attachments: image001.png

BASF links for their Dicamba trainings went down over the weekend. Below is the dicamba training information and the links to the meetings. Remember the Applicator of Dicamba must attend one of the trainings.

Dicamba Restrictions

If you apply Xtendimax, FeXapan or Engenia in Ohio, you must:

Take the dicamba-specific training (see dates below)
Be a licensed applicator or work under the direct supervision of a licensed applicator
Comply with all aspects of new labeling
Maintain specific records
Apply only when wind speeds are below 10 mph, but above 3 mph
Apply between sunrise and sunset, never during a temperature inversion
Survey surrounding area for sensitive crops and apply buffers accordingly
Use only approved nozzles (See List Here)

Precautions for Dicamba Use in Xtend Soybeans (Purdue Extension Factsheet)
Xtendimax Application Requirements
FeXapan Application Requirements
Engenia Application Requirements

Dicamba-Specific Training Dates

***ANY dicamba-specific training will meet the training requirement to apply Xtendimax, Engenia, or FeXapan, regardless of which company (BASF, Monsanto, Dupont) sponsored the meeting.**
