I am a professor of mathematics, editor of two research journals, and the director of the Center for Collaborative Studies in Mathematical Biology (CC-SMB) & the Intercollegiate Biomathematics Alliance (IBA).

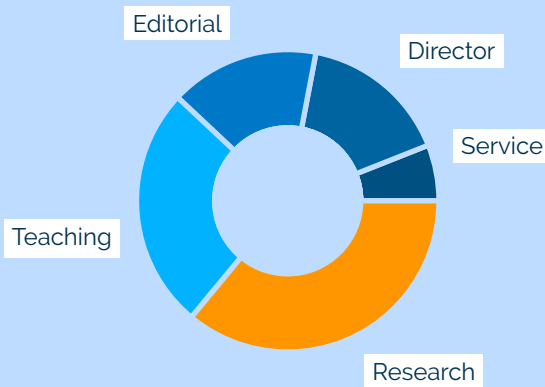

as latest degree from **University of Maine**

I am currently working on exciting interdisciplinary projects worldwide on modeling in biomathematics.

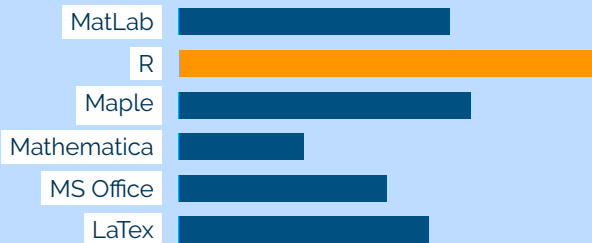

## FOCUS AND SKILLS

The main part of my research centers in the area of evolutionary computing and computing-intensive modeling in mathematical biology.

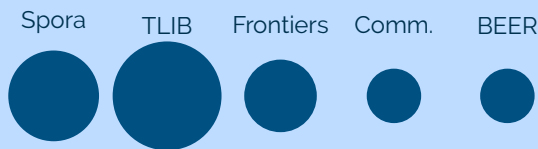

## LANGUAGES

- English
- Turkish

I am working on developing evolutionary computing based optimization packages for R/Shiny.

My editorial work includes Editor-in-Chief and Associate Editor for journals in the area of mathematical biology.

## MEETING ORGANIZATION

of conference organization

I am the main organizer of the Int'l Symp. on Biomathematics and Ecology Education and Research (BEER). I also co-organize Special Sessions for AMS and MAA.

- AMS Sessions
- Webinar
- BEER
- MAA Sessions

## EXPERIENCE AND EDUCATION
