

Cole records the weight of 3 objects as shown below. He puts two of the objects on a scale and the total weight is 450 grams.

Which two objects did he put on the scale?

Write a math fact to show how you know:

|                       |               |                    |
|-----------------------|---------------|--------------------|
| <b>Paperback Book</b> | <b>Banana</b> | <b>Bar of Soap</b> |
| 332 grams             | 107 grams     | 118 grams          |

Rylee and her mom take the bus to the mall. The clocks below show when they leave their house and when they arrive at the mall. How many minutes does it take them to get to the mall?

*Time when they leave home:*

*Time when they arrive at the mall:*

Explain how you know.
