## SUPPORT YOUR FACULTY IN THE 85TH ANNIVERSARY RESILIENCE RUN ON 29 MARCH 2014!

In commemoration of their 85th anniversary in 2014, the Faculties of Arts and Social Sciences, Dentistry and Science are collaborating on a joint-launch project on Saturday, 29 March – the 85th Anniversary Resilience Run. Comprising a fund-raising campaign, the Run reflects the resilience of the three faculties in weathering and overcoming various challenges over the years to become the uniquely successful institution that each is today. Dr William Tan, Faculty of Science alumnus and NUS Distinguished Alumni Service Award recipient (2005) has pledged to do an 85km-run round the NUS track for this event in his specially-equipped paraplegic tricycle.

To create greater awareness and support for the special needs student community on campus, all proceeds from the Run will go towards the Enablers, a non-profit student-interest group aimed at helping special needs students integrate into campus life through an extensive range of activities and projects. Over 1,000 supporters and participants from the NUS community (faculty, staff, students and alumni) and their families are expected to be at the event.

Do join us in the Run to show your support for the three faculties and the Enablers. Various distances are available for participants - check it out at the online registration [here](#). For queries, please contact Ms Lynn Tan at [reunion@nus.edu.sg](mailto:reunion@nus.edu.sg) / tel: 6516 3819 or visit our website at <http://www.fas.nus.edu.sg/anniversary/>.

### Giving

Support our anniversary cause by making a donation to enhance the noble activities of the NUS Enablers and making the campus more lively and at-home to the University's special-needs community; please proceed to the [NUS Giving Portal - The Enable Fund](#)
