## Update(ing) the Website

We are working on updating our website to include labs and their techniques, & photos from events. We will also be posting pop up socials, events, & photos.

Tell us what's going on! We want our department to be aware of issues grad students face and we want to strive to better the community! In other words, we want to increase student feedback!! Go to the 'Contact' tab and let us know what's up.

**Remind your PI we need your lab info for the website.**  
Or submit for them.

First Come First Serve in terms of Order Placement on the website. Please check out the Biology Labs tab on the CEGSS Website
