

## How to Connect to eduroam on your Android Device

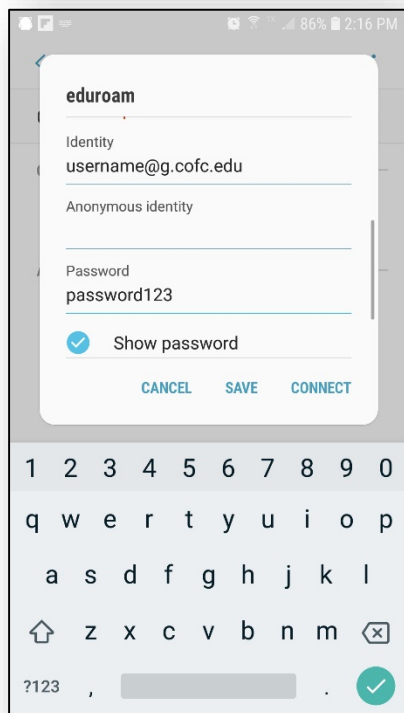

**Note:** eduroam is the secure wireless network for our campus, for use by CofC students, staff, and faculty. Registered students, faculty, and staff must use eduroam to access the College of Charleston wireless network. Don't forget that you can print from your own device, [click here](#) for details.

Instructions may vary depending on the type of Android device you have. If you run into issues, visit the Access & Instruction Desk in the Addlestone Library.

For Android based devices, go into the Wi-Fi settings and look for a broadcasting network named eduroam. When you are prompted for settings, enter them as shown below:

1. **Security – 802.1X Enterprise**
2. **EAP Method:** PEAP
3. **Phase 2 Authentication:** MSCHAPV2
4. **CA certificate:** Don't validate

5. **Identity:** Your full MyCharleston e-mail address
6. **Anonymous identity:** Leave blank
7. **Password:** Your MyCharleston Password
8. Click **Connect** when completed.

**NOTE:**

Because each device is different, instructions may vary slightly.
