

PROFESSIONAL DEVELOPMENT WORKSHOP FOR TEACHERS JUNE 18, 2015

Talking Trash: Marine Debris and the Environment

Come join us on Thursday, June 18th as we explore the growing problem of marine debris. Using an inquiry based approach, this workshop will include hands-on activities while meeting 2014 SC science standards. The workshop will examine the sources and impacts of marine litter in the Lowcountry, as well as discuss possible solutions to this global environmental issue.

Location:
College of Charleston
**School of Science and
Math Building
202 Calhoun Street
Room 229**

**9am-2pm
(Lunch Provided)**

**Aligns with 2014 SC
Science Standards**
