

STUDENT SAFETY AND TRAFFIC INFORMATION

Arrival Information:

We have two lanes entering and exiting our school's parking lot. Please use the inside lane only for dropping off students. If you need to get out of your vehicle for any reason, we ask that you use the outer lane and move into one of our parking spots. Do not weave from the outside lane into the inside lane.

Dismissal Information:

Parents/guardians driving onto campus to pick up their child have 2 options:

1. Staying in your vehicle, and using the inside lane to pull up next to the red curb. However, you **MUST** remain in your vehicle.
2. Using the outside lane, you may drive around and park in a spot in our parking lot. Then, you may leave your vehicle to walk onto campus and pick up your child.

Please, DO NOT pull up in the outside lane, stop and beckon for your child to cross in front of the inside lane of vehicles to enter your vehicle. This is extremely unsafe for your child!

Leaving our Campus:

During both arrival and dismissal times, we close off the left-hand lane, and require that all exiting vehicles make a right-hand turn onto Bellaterra Drive. There are no exceptions to this policy.

Walking onto Campus:

All students and adults who walk onto campus are asked to use only the crosswalks that are designated for moving onto campus. We place supervising adults/teachers with Stop signs at all crosswalks to ensure that students and adults are kept safe as they arrive or leave our campus. We ask that all adults model safe behavior for our children by complying with this request, and using the crosswalks. We request that you NOT cross from the parking lot into our school campus by walking through both lanes of moving traffic.

Bicycles, Scooters, Skates, & Skateboards:

A bicycle storage area is furnished for students who want to ride bicycles to school. **IT IS THE RESPONSIBILITY OF THE STUDENT TO LOCK HIS/HER BICYCLE IN THE STORAGE AREA AT SCHOOL.** We do not have sufficient personnel available to monitor this area, and the school cannot assume responsibility for bikes. Please walk all bikes, scooters, skates and skateboards at all times while on the school grounds. Students who ride on campus may have the privilege revoked. Helmets are required for students riding skates, scooters and bikes. Students not wearing a helmet are subject to be ticketed by the police.
