

VISION & MISSION

PBIS is a data-driven, team-based system that enhances the capacity of schools, families, and communities to respond to the unique needs of each student. This Multi-Tiered System of Supports (MTSS) focuses on creating and sustaining universal/school-wide (all students), targeted (small group), and intensive (individual) systems of support that improve the academic and social/emotional outcomes for all children and youth by making targeted behaviors less effective, and desired behaviors more functional.

FAMILY & COMMUNITY PARTICIPATION

Every school in Elk Grove has a PBIS team. Community and family members are critical members of this team. If you have a passion for helping create high quality, learning environments please consider this option. If you would like to know more about PBIS or have questions, please contact your site administration.
