Principal's Message

April 2017

Welcome to April!

There is much to look forward to in our last two months of school! Please make sure you mark your calendars for the many items you will find on the Calendar of Events on the next page.

Our 3rd-6th graders will take the SBAC exam again later this month. 2016 CAASPP/SBAC Tests - ELA & Math- April 17th - May 5th. We ask that you plan family appointments with consideration for our testing schedule. The Pleasant Grove Tigers rocked the SBAC last year and we are looking forward to another year of continued success! For additional information on the upcoming SBAC test, I encourage you to access this valuable resource: <http://www.smarterbalanced.org/parents/> Parents of children of all ages will enjoy the information!

Parents- We have experienced accidents and several very close calls involving students and adult pedestrians.

Tips for Making School Drop-Off and Pick-Up Safe and Less Stressful for Everyone

- Please pull all the way forward as far as possible... not just to the edge of the circle... all the way forward by the street. Keep moving up as the line moves. When people in front of you move, you move too.
- Pull all the way over to the curb. Pulling halfway over isn't safe for the student and also blocks both lanes.
- Never have your students get in or out of your car unless you are pulled up next to the curb. Having kids walk between moving cars is dangerous. Kids should only get in the vehicle on the curb side. If your child has to get in/out of the car on the street side, please find another place to safely pick up your child.
- If your child is young or needs help getting in/out of the vehicle due to a project/carrying something, please find a parking space. It's safer for you, your child, and the rest of us.
- Don't get out of your car in the pick-up circle. The pick-up line is not the place for this. It slows down the line, and puts you and others at risk.

As always, please pack your patience! Thank you for being patient and respectful to all.

Yours in education,

Deidra Wood
Principal

Our Newsletter is published each month and will contain information to assist in keeping you informed of activities and events in which your student may be involved. We will continue to provide information that you may find useful in providing support to your student on their educational journey. Your insight and input is strongly encouraged.

PG Science Fair & Invention Convention

Our annual Science Fair and Invention Convention was very successful! We had some amazing projects presented. Mr. Brown (6th Grade PG Teacher), Mrs. Brown (Albani Middle School), and Mr. Shy (PGHS) spent the entire day scoring each project submitted. Site level winners were as follows:

1st Grade - Mrs. Hengel's Class - Mara Patton "Do Heavier Chicks Lay Heavier Eggs?"

3rd Grade - Mrs. Goehring's Class - Katie Looper "Pigeon Feed and Squab Growth"

4th Grade - Mrs. Andrew's Class - Jonathan Morris "Solar USB Charger Shoes"

5th Grade - Mrs. Stradley's Class - Kyle Looper "The Effect of Drying Methods on Walnut Color"

6th Grade - Mr. Brown's Class - Cate Bakey "Light Bulb Heat"

These students projects were submitted to the district level Science Fair, where 52 elementary schools had submitted one project per grade level to complete. We are very proud to say our students took awards in four different grades!

1st Grade - Mara Patton - 3rd Place

3rd Grade - Katie Looper - 1st Place

5th Grade - Kyle Looper - 2nd Place

6th Grade - Cate Bakey - 3rd Place

CONGRATULATIONS!!

Pleasant Grove Elementary is proud to present a 3-Part GATE Presentation for parents! If you missed the first two presentations, that's ok! You can still come to the next one. The next session will be held:

Thursday, April 20th, 5:30 - 6:30pm.

Analyzing SBAC Test Scores

The sessions will be held in Room 21 and light refreshments will be offered. If you have questions regarding these events, please contact Ms. Teresa Ramirez at TRamiraa@egusd.net. These presentations are for parents only!

With increased emphasis on standardized tests in today's schools, helping a child navigate the demands of taking tests is a necessary task almost every parent has to face. It may be your child taking all the tests, but you're the one who needs to help him through it. Here are some test-taking tips for parents to help you get your child ready.

Test Taking Tips For Children & Parents

Tip #1: Make attendance a priority, especially on days that you know standardized testing will be administered or there is a test in the classroom.

Though it's important for your child to be in school as many days as possible, making sure he's there when the test is taken helps to ensure he won't lose more learning time because he has to make up a test during school.

Tip #2: Make a note of test days on the calendar -- from spelling quizzes to big high-stakes tests. That way both you and your child know what's coming and will be prepared.

Tip #3: [Look over your child's homework daily](#) and check for understanding. Subjects like science, social studies and math often have cumulative exams at the end of units or chapters. If your child is struggling with something now, it won't be easy for her to have time to try again to learn it just before the test.

Tip #4: Avoid pressuring your child and provide him with encouragement. Few children want to fail, and most will try their hardest to do well. Being afraid of your reaction to a bad test grade can increase anxiety, which makes careless mistakes more likely.

Tip #5: Confirm that your child will be receiving any pre-determined accommodations during tests. These accommodations are detailed in his [IEP](#) or [504 plan](#). If he doesn't have one but needs some assistance, make sure you've [communicated with his teacher](#) about his needs.

Tip #6: Set a [reasonable bedtime](#) and stick to it.

Many parents underestimate the importance of a rested mind and body. Tired children have difficulty focusing and are easily flustered by challenges.

Tip #7: Make sure your child has enough time to wake up fully before he has to go to school. Just as rest is important, so is having enough time to get his brain engaged and in gear. If his test is first thing in the morning, he can't afford to spend the first hour of school groggy and unfocused.

Tip #8: Provide a high-protein, [healthy, low-sugar breakfast](#) for your child. Kids learn better on full stomachs, but if their stomachs are full of sugary, heavy foods that will make them sleepy or slightly queasy, it's not much better than an empty stomach.

Tip #9: Talk to your child about how the test went, what he did well and what he would have done differently. Think of it as a mini-debriefing or brainstorming session. You can talk about [test-taking strategies](#) after the fact as easily as beforehand.

Tip #10: Go over the test with your child when he gets it back or when you receive the scores.

Together you can look at any mistakes he made and correct them so he knows the information for the next test. After all, just because the test is done doesn't mean he can forget everything he learned!

And perhaps most important, watch your child for signs of [stress and anxiety](#), which is an all-too-common occurrence among children today. The stress can be caused not just by tests and test-taking, but by increased academic demands in elementary school as well as [increased amounts of homework](#) and decreased time spent on stress-relieving activities and recess. Parents can help by keeping a close eye on their children and stepping in when they see signs of stress.
