

Accessible Green

"People need green open places to go to; when they are close they use them, but if the greens are more than three minutes away, the distance overwhelms the need".

Many different elements comprise this pattern. The success lies in the combination of usage. In this example, there lies many trees, a garden wall, and the acceptance of animals.

Any accessible Green pattern should include the following elements to strengthen its urban design appearance.

- [Tree Places.](#)
- [Positive Outdoor Space.](#)
- [Garden Wall.](#)
- [Holly Area.](#)

- [Burial Site.](#)
- [Sports area.](#)
- [Space for animals.](#)
- [Sleeping in public.](#)
