

# JOB FAIR

## FALL '15 ENGINEERING & COMPUTER SCIENCE JOB & INTERNSHIP FAIR

WEDNESDAY, SEPTEMBER 30, 2015

1:00 PM - 5:00 PM

EVENT CENTER

\*LAST ADMITTANCE: 4:30 PM

Meet with employers who have anticipated career and/or internship opportunities for SJSU candidates and registered alums. Over 40% of participating employers have internship opportunities. Check out the complete list of employers at [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter) or scan the code on the left.

**Bring current Tower Card or Center Membership Card and a photo ID.**

**\*UNDERGRAD HOUR 12:00 - 1:00 PM. EARLY ACCESS FOR ALL FRESHMAN, SOPHOMORES, JUNIORS AND SENIORS.**

8x8, Inc. 58  
ACCO Engineered Systems 68  
Air Systems 20  
AllianceIT 19  
Altera Corporation 17  
Applied Materials 3  
Applied Predictive Technologies 16  
Applied Underwriters 88  
Apttus 15  
Aruba Networks 80

# TIPS FOR SUCCESS

SJSU Career Center job fairs are an excellent opportunity for you to gain information about anticipated internships and career positions. It is also a great way to make contacts. Identify which organizations you want to interact with by previewing this list of participants. Log on to the Career Center's website @ [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter) to research their job descriptions so that you can target your resumes and one-minute commercials. Instructions are on the list of employer participants.

## BEFORE THE FAIR

**Register with SpartaJobs for faster entry into the fair the day of the event.**

**Identify** which organizations you want to talk to at the Fair.

Log on to the Career Center's website @ [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter) to research their job descriptions and their organization so that you can target your resumes. Directions are on the reverse. If specific positions are not listed, check the employer's website for additional job postings. Know what the company does and what their key products or services are. This information will be helpful when speaking to employers. For more tips on researching employers, review the Researching Webshop at [http://www.sjsu.edu/careercenter/students/videos\\_workshops\\_and\\_handouts/virtual-workshops-videos/index.html](http://www.sjsu.edu/careercenter/students/videos_workshops_and_handouts/virtual-workshops-videos/index.html).

**Prepare your resume.** "Target" a resume to each employer's job opening. Shape up your resume with a **resume critique** - - Come to a job and internship search lab, drop in hours or request an appointment through SpartaJobs. Go to [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter) for our events calendar and to access SpartaJobs.

**Review our Job Fair Success Webshop** online to perfect your one minute commercial and employer introduction. Go to [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter) > videos, workshops, and handouts > job fair success webshop to review the webshop.

**Practice presenting yourself as follows:**

- Introduce yourself — look confident and initiate a handshake with a smile.
- Demonstrate a knowledge of the organization. Listen to the conversation with recruiters while you wait in line.
- Prepare a one-minute commercial (your verbal portfolio) — describe your strengths, major, career interests, work experience, extracurricular activities, and the type of career information or job you are seeking. Show how your background and future goals fit the organization.

**Prepare questions to ask representatives:**

- What types of assignments are given to new graduates or interns?
- What do you look for in candidates? What key skills/experiences are highly desirable?
- What type (if any) of professional growth/development opportunities are available?
- Do you have any other tips for success in this field?

## AFTER THE FAIR

If you are given the contact information of the representative you spoke with at the fair, follow-up with an email thanking them for their time and information. Include another resume and any other information requested (completed application, recommendations, or transcripts).

Develop a post job fair plan to keep actively engaged in your job search. Attend a Career Center Rock Your Interview Workshop or WebEx Webinar to prepare for success in your interviews. Utilize our online tools, such as **Big Interview**, the Job Search Toolkit or our 3-part Interviewing Webshop Series.

Keep in mind your responsibilities as a job seeker. If you accept a job offer after the fair and your interviews, it is time to **stop interviewing!** Instead, prepare to put your best foot forward at your new employer by attending our "Professionalism in the Workplace" workshop or webinar.

Be sure to check the job listings on **SJSU's SpartaJobs** and upload your resume to apply for open positions. **Go to [www.sjsu.edu/careercenter](http://www.sjsu.edu/careercenter)**. There are also many other resources available online and in the Career Resource Lab, Admin. Bldg., room 154

## AT THE FAIR

**Dress professionally.**

**Target** organizations that are of interest to you:

- **Pick-up and scan** the employer's short handout. Determine if your one-minute commercial will remain the same.
- **Introduce** yourself to the representative.
- **Give your resume to the representative.** Begin your one-minute commercial. Remember: the one minute commercial is an **introduction to begin your conversation.** Avoid giving a one minute speech, and instead try to engage in a two way conversation with the employers. Ask questions (examples to the left) and listen carefully to the response.
- **Ask** about the application procedure. A positive attitude pays off! Follow up — get a business card or a contact name. Do not ask questions about salary and benefits.
- **Be prepared to be asked to apply online for positions.** This is a common practice today and an important step in landing an interview.
- **Bring your calendar.** Be prepared to schedule interview appointments.
- **If you are speaking with a recruiter** and there is a line behind you, be courteous and spend just a few minutes in conversation. If after 5 minutes there seems like a good connection, ask the recruiter for a way to follow up and continue the conversation later. Explain that you want to respect their time and give them an opportunity to meet other students. This will make you seem professional and will give a good impression.
- **Good luck!**

Fall '15 Engineering and Computer Science Job/Internship Fair Participants  
 Wednesday, September 30, 2015  
 Event Center

As of 9/24/15

Organization Name	Positions Available	Majors Recruited
8x8, Inc.	QA Intern (119921),Deployment Engineer (119980),Technical Support Rep - Advanced Technical Support Team (119984),Product Manager, Business Telephony (119982),Sr. Java Developer (119983),Deployment Engineer (119981)	Quality Assurance, Computer Science, Computer Engineering, Engineering, Management Information Systems, Science
ACCO Engineered Systems	Design Engineer (117923)	Engineering, Mechanical Engineering

Universal Giving	Software Engineer Intern (118686)	Engineering, Software Engineering
Varian Medical Systems, Inc.	Software Engineer - Applications (119687)	Applied & Computational Mathematics, Computer Science, Computer Engineering, Mathematics, Electrical Engineering, Physics, Software Engineering
Verizon	Product Development Internship Opportunities (118687)	MBA/MSE Dual Degree, Engineering Management, MSE, Computer Engineering, Engineering, Electrical Engineering, General Engineering, Industrial & Systems Engineering, Industrial Technology, Mechanical Engineering, Software Engineering
Visa, Inc.	Software QA, Network Engineering, Information Security, Software Development & Tech Project Management Opportunities (117873)	Computer Engineering, Management Information Systems, Software Engineering

Fall '15 Engineering and Computer Science Job/Internship Fair Participants  
 Wednesday, September 30, 2015  
 Event Center

As of 9/24/15

VMware, Inc.	Internships and New Graduate opportunities (118689)	Computer Science, Computer Engineering, Software Engineering
Walmart eCommerce	Intern - Software Engineer (118507)	Computer Science, Mathematics, Software Engineering
Walters & Wolf	Architectural Precast Estimator - Senior Level (119674)	Civil & Environmental Engineering (& Construction Mgmt.), Engineering, Industrial & Systems Engineering, Mechanical Engineering
Xilinx, Inc.	Entry Level Professionals/Interns (118762)	Computer Science, Computer Engineering, Electrical Engineering, Software Engineering
Zenyx, Inc.	Associate Software Engineer Front End (120176)	MBA/MSE Dual Degree, Applied & Computational Mathematics, Aerospace Engineering, Computer Electronics & Network Technology, Engineering Management, Aviation, Chemistry, Human Factors & Ergonomics, Manufacturing Systems & Sustainable & Green Mfg., Industrial & Systems Engineering, Quality Assurance, Chemical Engineering, Computer Science, MSE, Civil & Environmental Engineering (& Construction Mgmt.), Computer Engineering, Mathematics, Electrical Engineering, Physics, Materials Engineering, Mechanical Engineering, Software Engineering
