Please join us in telling the story of our neighborhood—Columbia Point—from the 1940s through the 1990s. Graduate students in UMass Boston's Spring 2015 public history seminar will interpret parts of the local history through time, objects, photos, and physical sites.

We invite community members to join the students on May 9 to review their work and to participate in the process of making a history of Columbia Point.

Together we will create a community history and identify materials for a future exhibition on the neighborhood. **Bring photos, stories, objects, documents, and questions to include in an interactive timeline and in other historical media designed by the student project team.**
