- Better education for our children
- A building program to replace worn-out schools
- To keep within the school budget
- More technical training for jobs in today's world including a 13th and 14th grade
- Central location for Boston English High, now
- Hot lunch programs in all schools
- To take advantage of Federal funds and programs
- Meet state and Federal standards
- A permanent teacher in every classroom
- Upgraded guidance counseling
- To give teachers the right to vote on union representation

These are the outstanding failures of the present School Committee!
