Semesters 3-6

# TDP Foundational Track in 1 Year

You can complete the Foundational Track in **one** (busy) year. Below is a recommendation for what that year could look like. Remember: because you are allowed to complete TDP requirements in any order and over any timeline as long as you're a registered student, the suggested timing below is flexible and will depend on your goals, teaching assignments, and other commitments.

**Take a moment to consider how your own timing might look different given your specific context and goals.**

## Semester 1

### 1. Preparing to Teach

(Annotated policy sheet and first day plan)

### 2. Essentials of Teaching & Learning

Essentials 1: Inclusive Teaching  
Essentials 2: Learning Objectives  
Essentials 3: Active Learning  
Essentials 4: Assessment & Feedback

*Plus a written reflection about each*

## Semester 2

### 1. Pedagogy Workshops #1-3

Choose any 3 workshops from the [TDP Event Finder](#)

*Plus a written reflection about each*

### 2. Be observed\*

Not currently teaching? Join a scheduled Practice Teaching (Microteaching) session or contact us to schedule one in your department.

Currently teaching? Request a Teaching Observation or Mid-Course Review.

*Plus a written reflection*

### 3. Reflective Narrative

Looking back at progress toward Foundational Track objectives, plus an artifact representative of your developed teaching practice

Once all of the above assignments are complete, submit the **TDP Track Exit Form** ([bit.ly/ctl-tdp-exit](https://bit.ly/ctl-tdp-exit)) let the CTL know that you're finished.

# TDP Advanced Track in 3 Years

TDP participants can reasonably complete the Advanced Track over a three year period. Here's a recommendation for what those three years could look like. Remember: because you are allowed to complete TDP requirements in any order and over any timeline as long as you're a registered student, the suggested timing below is flexible and will depend on your goals, teaching assignments, and other commitments.

**Take a moment to consider how your own timing might look different given your specific context and goals.** Note: if you wish to complete the Advanced Track in *less than* three years, contact [CTLgrads@columbia.edu](mailto:CTLgrads@columbia.edu) for guidance.

## Year 1

**You must have a CTL Observation** (in addition to one other observation, including Practice Teaching (Microteaching), Mid-Course Review, or a second Teaching Observation) to complete the Advanced Track, so we recommend you **get observed as soon as possible** while you're actively teaching.
