The Office of the Provost invites faculty to apply for funding to support innovative teaching and learning projects. Seven funding opportunities are available; click the name below to go to a description of the opportunity and view the questions that will be asked on the application:

- Innovative Course Design Grant
- Innovative Course Module Design Grant
- Interdisciplinary Teaching Initiatives (ITI)
- Large-Scale Teaching & Learning Grant
- Massive Open Online Course (MOOC) Grant
- Emerging Technology Grant
- SOLER Seed Grant

The deadline to submit proposals is **Monday, May 1, 2023, at 5:00 P.M.**

---

What funding source are you applying for?

- Innovative Course Design Grant
- Innovative Course Module Design Grant
- Interdisciplinary Teaching Initiatives (ITI)
- Large-Scale Teaching & Learning Grant
- Massive Open Online Course (MOOC) Grant
- Emerging Technology Grant
- SOLER Seed Grant

---

Click the arrow button to proceed to the application.
SOLER Seed Grant
This grant facilitates and supports discipline-based education research (DBER) efforts at Columbia. DBER is the application of formal research methodologies to the scholarship of teaching and learning. The grant provides faculty members across the University with funding and in-kind support to engage in DBER – that is, to lead formal research efforts to better understand and improve teaching and learning in Columbia courses.

What is the name of the principle investigator (PI) who will act as the primary contact for this grant application?
________________________________________________________________

What is the UNI of the primary contact PI?
________________________________________________________________

What is the title of the primary contact PI?
________________________________________________________________

What is the department of the primary contact PI?
________________________________________________________________

What is the school of the primary contact PI?
________________________________________________________________

Please list additional PIs, including their names, titles, and UNIs:
________________________________________________________________
Please enter the full title of your proposal:

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

Please enter the budget requested in your proposal:

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

Does your proposed project include the application of generative artificial intelligence tools to enhance teaching and learning?

☐ Yes (1)

☐ No (2)

_________________________________________________________________________

_________________________________________________________________________

Does your proposed project create a new course or modify an existing course?

☐ New

☐ Existing

_________________________________________________________________________

_________________________________________________________________________

If previously existing, what is the course name and number?

_________________________________________________________________________

_________________________________________________________________________
Is this a graduate or undergraduate course?

- Undergraduate
- Graduate
- Both

If an existing course, how many students were enrolled the last time it was offered?

How many students do you anticipate will enroll in the course?

Upload your documents.
Attach your proposal with combined letter of support from your department chair or vice dean as one PDF.
