

Customize the Learning Portfolio Template

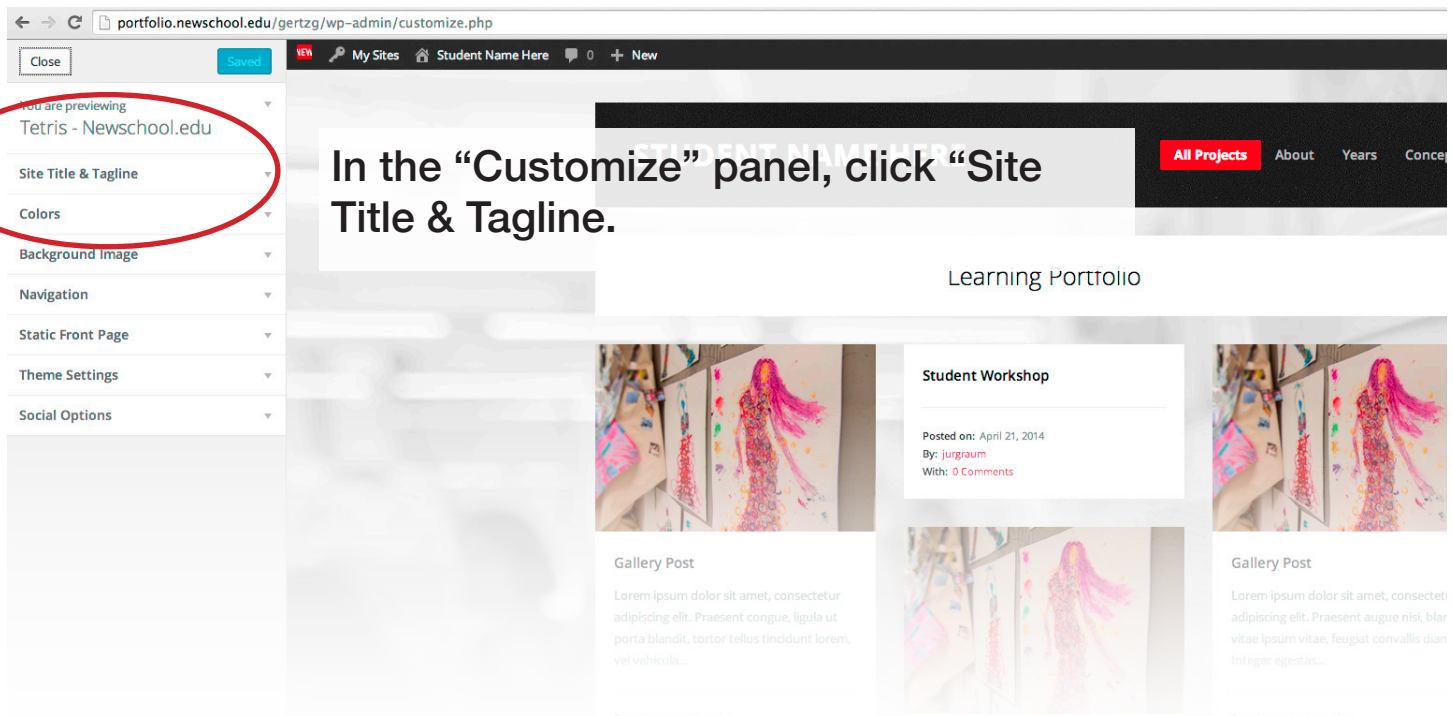

After you activated the template, you will need to customize elements such as the site title and tagline of your Learning Portfolio in addition to more features.

Step 1

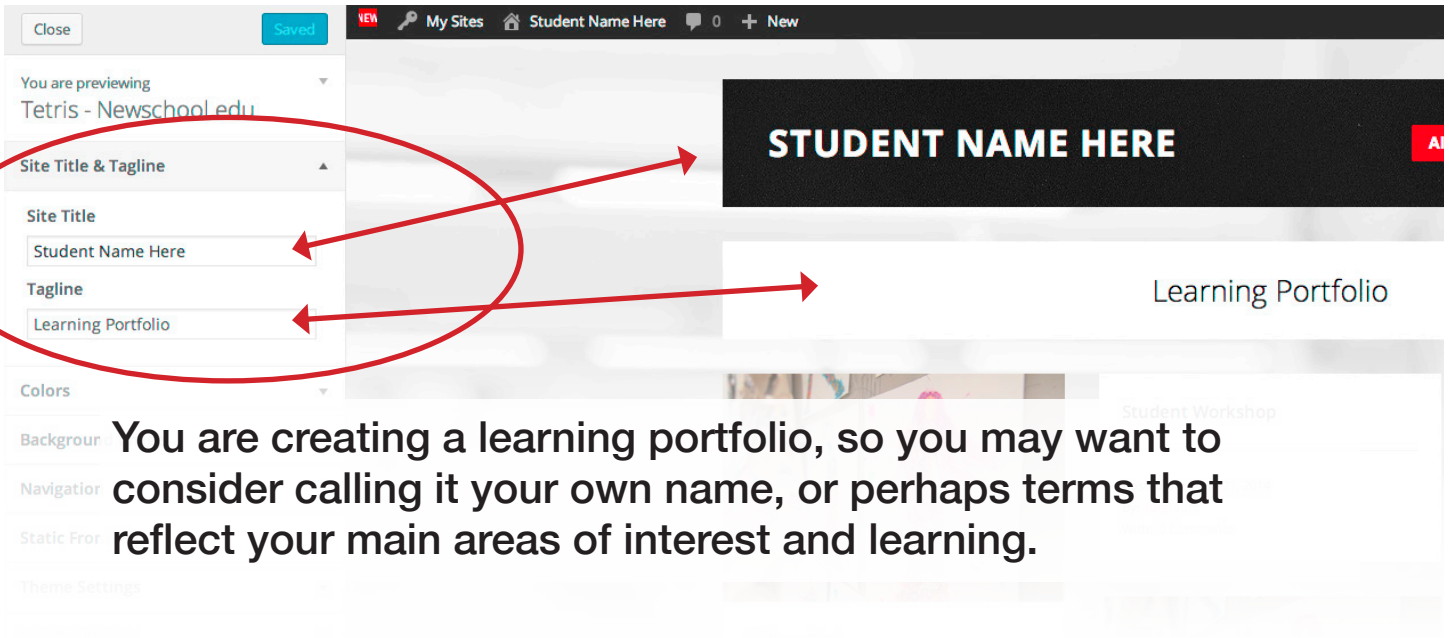

The screenshot shows the WordPress dashboard. On the left sidebar, the 'Appearance' menu is highlighted in blue, and the 'Customize' option is circled in red. The main content area displays the 'Themes' section for the 'TETRIS' theme, with a search bar and a 'Customize' button. A text overlay reads: "From the Dashboard navigate to the Appearance menu and click the 'Customize' link."

Step 2

The screenshot shows the 'Customize' panel in the WordPress admin interface. The 'Site Title & Tagline' option is circled in red. The main preview area shows the 'TETRIS' theme with a site title of 'TETRIS' and a tagline of 'Welcome To Blog of AJ Clarke'. A text overlay reads: "In the 'Customize' panel, click 'Site Title & Tagline.'" Below the preview, there are sections for 'Student Workshop' and 'Gallery Post'.

Step 3

Theme Settings

You are creating a learning portfolio, so you may want to consider calling it your own name, or perhaps terms that reflect your main areas of interest and learning.

Step 4

Navigation

Under “Colors”, you can set your own “Background Color” using the color picker.

STUDE

Gallery Post

Lorem ipsum dolor sit

Step 5

The screenshot shows a website theme customizer interface. On the left, there is a sidebar with several sections: 'You are previewing Tetris - Newschool.edu', 'Site Title & Tagline', 'Colors', 'Background Image', 'Background image', 'Background Repeat', 'Background Position', 'Background Attachment', and 'Navigation'. The 'Background Image' section is highlighted with a red circle. Below it, there is a 'Background image' section with a preview image and an 'Upload New' button. A dashed box below the button contains the text 'Drop a file here or select a file.' and is also circled in red. The 'Background Repeat' section has four radio button options: 'No Repeat' (selected), 'Tile', 'Tile Horizontally', and 'Tile Vertically'. The 'Background Position' section has three radio button options: 'Left' (selected), 'Center', and 'Right'. The 'Background Attachment' section has two radio button options: 'Fixed' (selected) and 'Scroll'. On the right side of the interface, there is a preview area showing a blurred background image with a black box containing the word 'STUDE' in white. Below the preview area, there is a 'Gallery Post' section with a placeholder image and text: 'Lorem ipsum dolor sit adipiscing elit. Praesen porta blandit, tortor te vel vehicula...'. At the bottom right, there is a partial view of a person's profile picture.

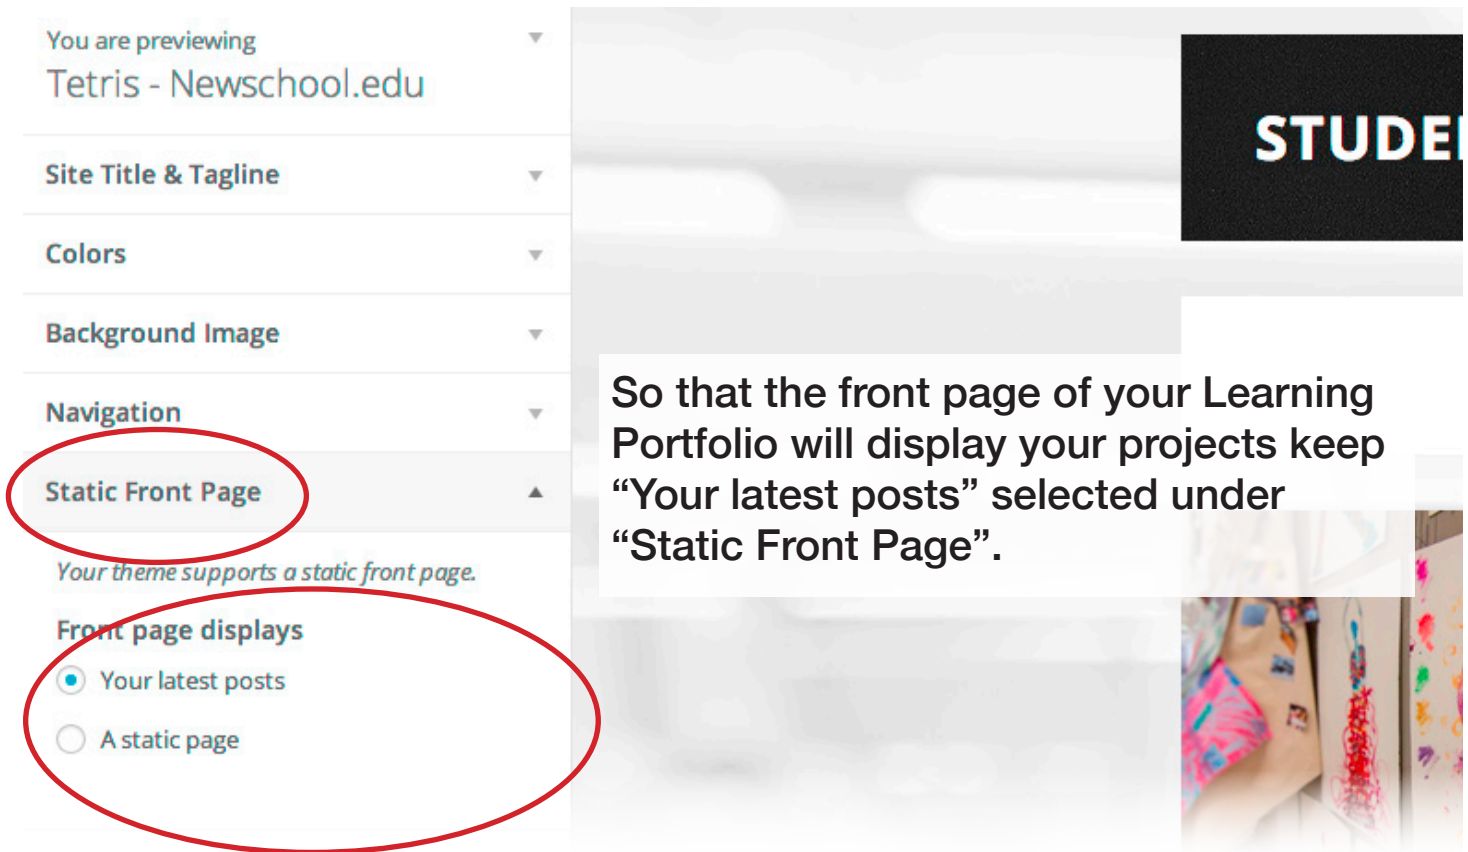

Under “Background Image”, choose a custom image that reflects your aesthetics or main area of learning.

To upload an image from your hard drive either drag a file to the field or click “select a file”.

To fill the browser window, save your image approximately 2075px width x 1385px height using an image editor.

Use these settings to set your background image as it appears in the example.

Step 6

You are previewing
Tetris - Newschool.edu

Static Front Page

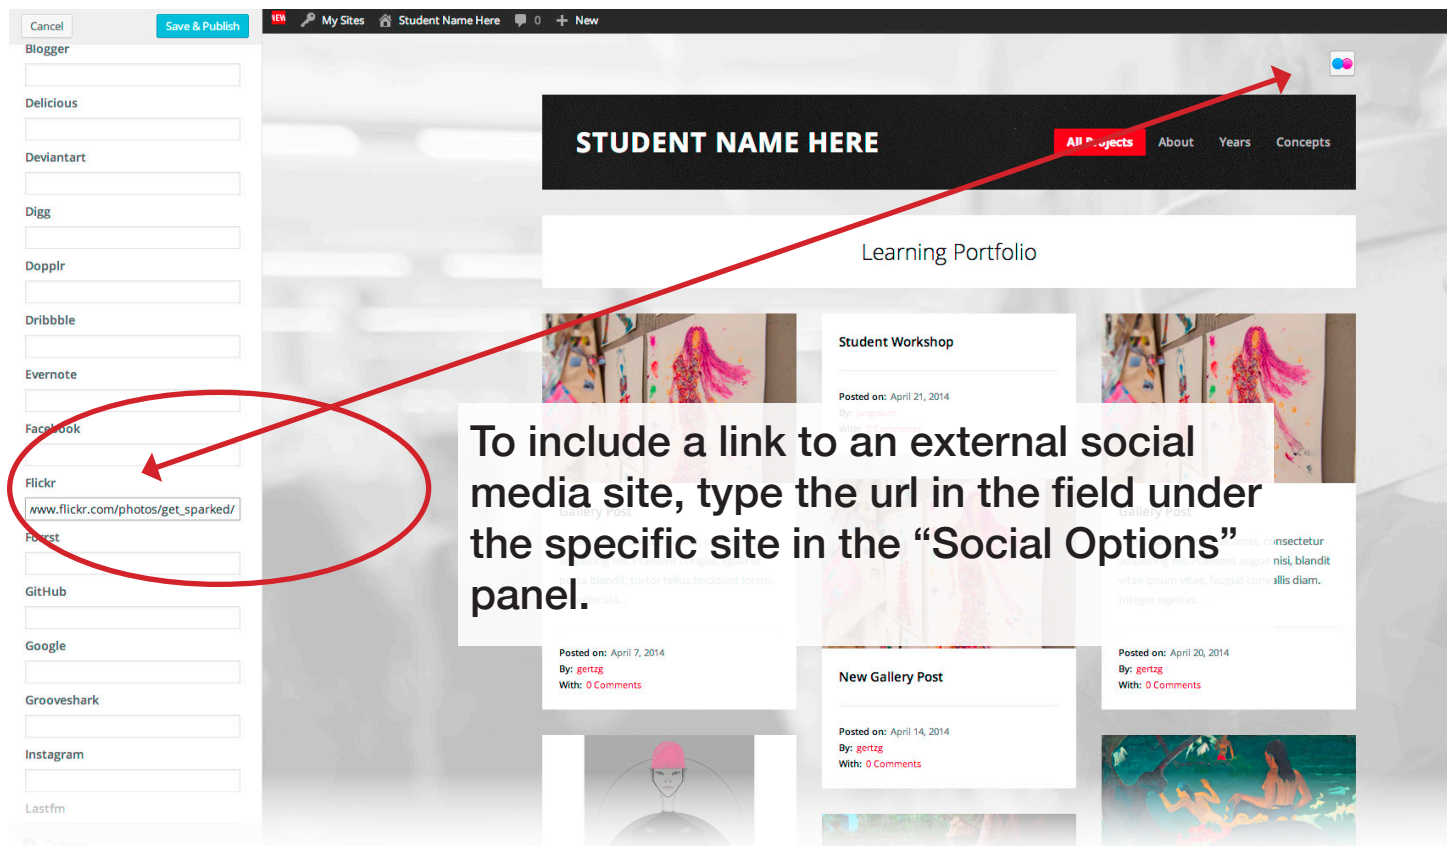

Your theme supports a static front page.

Front page displays

- Your latest posts
- A static page

So that the front page of your Learning Portfolio will display your projects keep “Your latest posts” selected under “Static Front Page”.
