

Implementing Measurement of Patient Function in the Acute Hospital

Daniel Young, PT, DPT, PhD
@DLYoungDPTPhD

Bed Rest is Bad

- 1899 there was discussion of a radical change in the after-treatment of celiotomy cases; the postoperative period of bed rest could be cut to hours, instead of days or weeks, and result in reduced muscle weakness
- 1944, a conference on bed rest was held, and major journals were publishing on related topics, such as the “evil sequelae of complete bed rest” and the “abuse of rest in bed”

Ries, E. *JAMA*. 1899; XXXIII(8): 454-456.
Dock, W. *JAMA* 1944; 125(16): 1083-1085
Powers, JH. *JAMA* 1944;125(16): 1079-1083
Hashem M. *Respiratory Care* July 2016, 61(7) 971-979

Evidence is Not Translating

Baldwin et al. Clinical Rehabilitation. 2020

- Bed rest is pervasive during hospitalization.
- Lying in Bed: 71% to 94% of hospital stay (17 – 22 Hrs)
- Stand/Walking: 1% to 5% (0.2 – 1.1 hrs)
- Patients independent w/ walking on admissions spend **<30%** time out of bed.

Walking Assistance on Admission

Independent

Not-Independent

Evidence is Not Translating

Pronovost, P. J. et al (2008). Translating evidence into practice: a model for large scale knowledge translation. *BMJ (Clinical Research Ed.)*, 337(6), 963–965.

Mounting Evidence

Overall concepts

Envision the problem within the larger healthcare system
Engage Collaborative multidisciplinary teams centrally (stages 1-3 and locally (stage 4))

1. Summarize the evidence

2. Identify local barriers to implementation

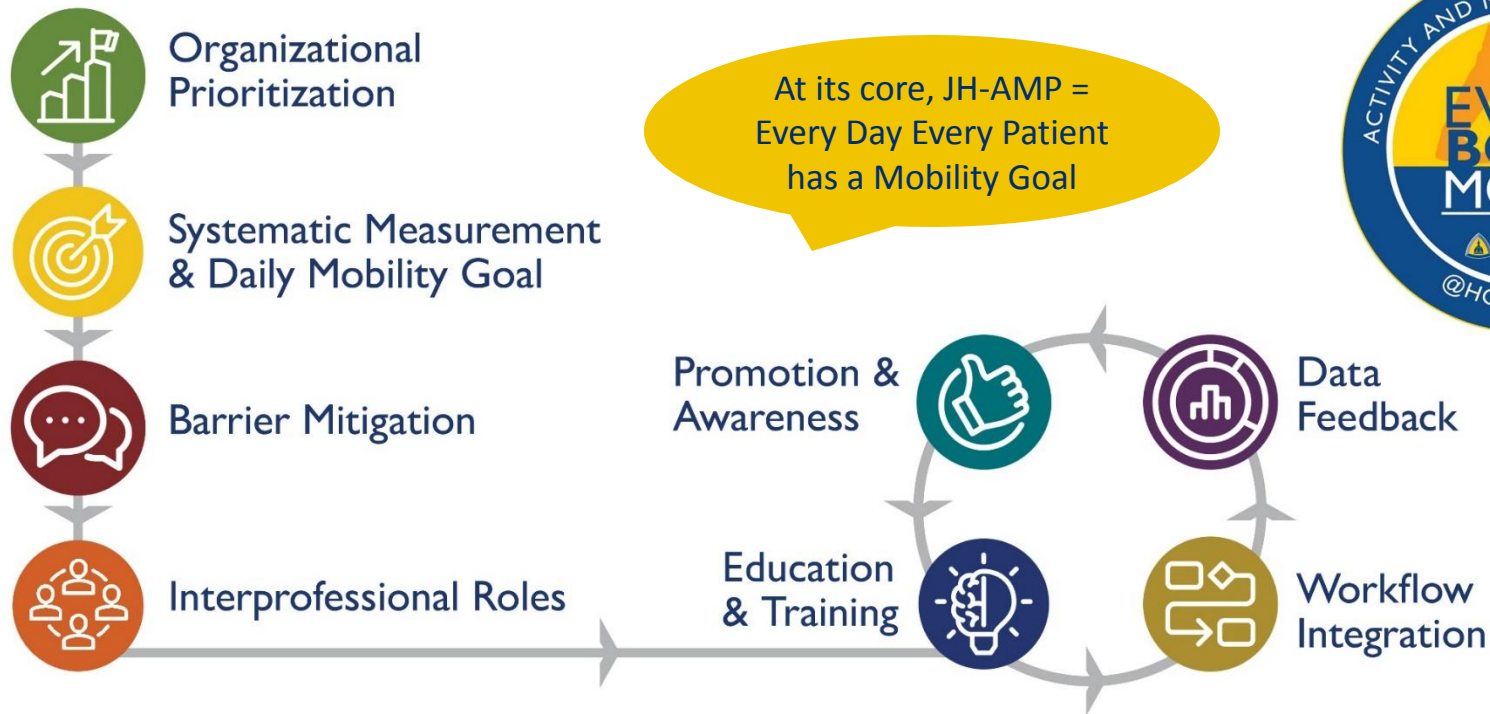

3. Measure Performance and Outcomes

4. Ensure all patients receive the interventions

Johns Hopkins Activity and Mobility Promotion

1.
McLaughlin KH, et al. The Johns Hopkins Activity and Mobility Promotion Program: A Framework to Increase Activity and Mobility Among Hospitalized Patients. *Journal of Nursing Care Quality*. 2023;38(2):164.
doi:[10.1097/NCQ.0000000000000678](https://doi.org/10.1097/NCQ.0000000000000678)

Step 2: Systematic Measurement & Daily Mobility Goal

Tool Selection Criteria

- Psychometrically Sound
 - Reliable and Valid when scored by different providers
 - Valid for most/all hospitalized adults
- Easy and fast to score especially for nursing

Step 2: Systematic Measurement & Daily Mobility Goal

- Capacity
 - capable of being mobile but may not be currently

- Amount performed
 - How much over time

Cleveland Clinic

AM-PAC '6- Clicks' Scales

Mobility

1. Bed mobility
2. Supine to sit
3. Bed to chair
4. Sit to stand
5. Walk in room
6. 3-5 steps with a rail

Daily Activity

1. Eating meals
2. Grooming
3. Dressing Uppers
4. Dressing Loweres
5. Toilet (toilet, urinal, bedpan)
6. Bathing (wash, rinse, dry)

Jette et al. *PTJ*. 2014

Step 2: Systematic Measurement & Daily Mobility Goal

- Capacity
 - capable of being mobile but may not be currently

- Amount performed
 - How much over time

Step 2: Systematic Measurement & Daily Mobility Goal

Johns Hopkins Activities of Daily Living (JH-ADL) Guide			
AM-PAC MOBILITY SCORE	JOHNS HOPKINS HIGHEST LEVEL OF MOBILITY (JH-HLM) GOAL		ACTIVITIES OF DAILY LIVING
	24	8 WALK 250 FEET OR MORE	ALL ADLS IN BATHROOM AFTER GATHERING SUPPLIES IN ROOM 
	22-23	7 WALK 25 FEET OR MORE	
	18-21	6 WALK 10 STEPS OR MORE	TOILET IN BATHROOM 
	16-17	5 STAND (1 OR MORE MINUTES)	WASH FACE, COMB HAIR, SHAVE, BRUSH TEETH 
	10-15	4 MOVE TO CHAIR/COMMODE	UPPER BODY WASH AND DRESS 
	8-9	3 SIT AT EDGE OF BED	WASH FACE, COMB HAIR, SHAVE, BRUSH TEETH 
	6-7	2 BED ACTIVITIES/DEPENDENT TRANSFER	
		1 LAY IN BED

Step 6: Workflow Integration

Step 7: Data Feedback

Team Culture

- Incorporate into daily practice
- Common Language
- Huddles, onboarding, workflow
- patient centered

KPI 1: Documentation Compliance

- Back to basics
- % JH-HLM & AM-PAC compliance
- Documentation audits

KPI 2: Goal Achievement

- Patient engagement
- Mobility goal audits
- Nursing workflow

KPI I – Documentation Compliance

JH-HLM and AM-PAC Performance

Legend: ■ Below 69.5% ■ Between 69.5% and 89.5% ■ Above 89.5%

Unit	JH-HLM			AM-PAC Mobility Admission			AM-PAC Mobility Daily		
	August 2021	September 2021	October 2021	August 2021	September 2021	October 2021	August 2021	September 2021	October 2021

Multicenter Implementation

- Primary Outcomes
 - Goal achievement

Multicenter Implementation

- Primary Outcomes
 - Implementation Completeness
 - KPI 1 & 2
 - measured daily from start to 6-months
 - Focus groups with frontline nurses
 - Online training not very helpful
 - Hands on training best
 - Not clear on parts of goal calculator
