

Esteban Gazel

Charles N. Mellowes Professor in Engineering

Department of Earth and Atmospheric Sciences

Graduate Fields of Geological Sciences, Material Sciences and Engineering

Cornell University

2122 Snee Hall, Ithaca, NY 14853

Lab Website: <https://gazelresearchgroup.eas.cornell.edu>

PROFESSIONAL APPOINTMENTS

- 2022-pres.** Department of Earth and Atmospheric Sciences, Cornell University
- Professor
- Atkinson Center for Sustainability, Cornell University
- Faculty Fellow
- Cornell Center for Materials Research, Cornell University
- Faculty Member
- American Museum of Natural History
- Research Associate in the Division of Physical Sciences
- 2017-2022** Department of Earth and Atmospheric Sciences, Cornell University
- Associate Professor
- Atkinson Center for Sustainability, Cornell University
- Faculty Fellow
- Cornell Center for Materials Research, Cornell University
- Faculty Member
- 2019-2021** Department of Earth and Atmospheric Sciences, Cornell University
- Director of Undergraduate Studies
- 2011-2017** Department of Geosciences, Virginia Tech
- Assistant Professor
- Lamont-Doherty Earth Observatory of Columbia University
- Adjunct Assistant Research Professor
- 2009-2011** Lamont-Doherty Earth Observatory of Columbia University
- Postdoctoral Fellowship in the Earth, Environmental, and Ocean Sciences
- 2007** IFM-GEOMAR, Kiel, Germany
- Invited Scientist (Summer-Fall)
- 2005-2007** Department of Earth and Planetary Sciences, Rutgers University
- Teaching Assistant: Introductory Geology, Mineralogy, Petrology
- 2001-2005** Central American School of Geology, University of Costa Rica (UCR)
- Teaching Assistant: Geochemistry, Mineralogy and Economic Geology

- Responsible for the University's collection of rocks and minerals
- Undergraduate Research: Magmatic evolution of the Miocene Arc in Central America

2001-2004 Research Center in Nuclear Sciences (CICANUM), University of Costa Rica

- Undergraduate Research: Geochemistry of radioactive isotopes in active volcanic systems

EDUCATION

2005- 2009 Department of Earth and Planetary Sciences, *Rutgers University*
Ph.D. in Geological Sciences
Thesis: Interaction of the Galapagos Plume with the Southern Central American Volcanic Front.
Committee: M. J. Carr, C. Herzberg, M. Feigenson, and K. Hoernle

2001- 2004 Central American School of Geology, *University of Costa Rica*
B.S. in Geology (highest honors in 2004)
Undergraduate thesis: Volcanology of Poás Volcano Cinder Cones, Costa Rica.

HONORS AND AWARDS

2022 **Charles N. Mellowes Professor in Engineering**, Cornell University

2020 **Daniel M. Lazar '29 Excellence in Teaching Award**, the highest award for teaching in the College of Engineering, Cornell University.

2018 **GeoPrisms Distinguished Lecturer**

2017 **Kuno Lecture** at the European Geoscience Union meeting in 2017

2016 **Hisashi Kuno Award**, Volcanology, Geochemistry and Petrology Section of the American Geophysical Union (AGU).

2015 **Scholar of the Week**, Research Division, Virginia Tech

2014 **40 under 40** accolade from "El Financiero" the finance newspaper of Costa Rica and Central America

2013 **Carl Storm Minority Fellowship** for the Gordon Conference of the Interior of the Earth, Mount Holyoke College, Massachusetts

2009 **Postdoctoral Fellowship in the Earth, Environmental, and Ocean Sciences, Lamont-Doherty Earth Observatory**, Columbia University (only three granted in 2009)

Costa Rican National Science Award “Clodomiro Picado.” This is the most prestigious scientific honor given annually by the government of Costa Rica for outstanding scientific research

- 2008** **Bevier Fellowship for Excellence in Graduate Research**, Rutgers University
- 2007** **University Excellence Fellowship**, Rutgers University
Graduate School Research Award in Sciences, Rutgers University

RESEARCH FUNDING

- 2024** *Towards Efficient Geological Hydrogen Production: Rate Determination, Control and Reactor Development*, **Department of Energy, ARPA-E program (\$442,112)**
- Global Centers: A Microbe-Mineral Atlas for a Sustainable Energy Future*, **National Science Foundation (\$ 449,152 of \$2,000,000 total center award)**
- 2023** *Biologically accelerated CO₂ sequestration and critical elements recovery*, **Robert and Nancy Selander Foundation (\$1,225,000** for co-PIs Gazel and Barstow)
- Investigating the volatile evolution and decompression rate of high-intensity basaltic eruptions* (**\$348,300** for PI Gazel), Award No. EAR **2318614** Petrology and Geochemistry, **National Science Foundation.**
- 2022** *Collaborative Research: Reconstructing the geometry of magmatic plumbing systems using fluid inclusions* (**\$226,509** for PI Gazel). Award No. EAR 2216738. Petrology and Geochemistry, **National Science Foundation.**
- 2021** *Reconstructing the melt composition and volatile record of Chassignite NWA 2737 (20-SSW20-0066, \$559,322).* No. **80NSSC21K1806** **National Aeronautics and Space Administration.**
- 2020** *Volcanic Ash and its impact on the Earth System* (**\$364,856** for PI Gazel of a total of **\$1.4 million** for EAS, Cornell). No. **80NSSC20K1674** **National Aeronautics and Space Administration.**
- Engineered Microorganisms for Enhanced Rare Earth Element Bio-mining and Separations.* (**\$317,064** for PI Gazel of **\$1 million** EAS and BEE, Cornell) **ARPA-E program, US Department of Energy.**
- Solid Ground – Developing a Spectral Database for Exoplanet Research (51 Peg b Fellowship for Emily First under PI Gazel, \$375,000)* **Heising-Simons Foundation.**
- 2019** *Laboratory Exploration of Lava Worlds* (**\$499,900** for PIs Gazel & Kaltenege, Cornell), **Heising-Simons Foundation.**

- 2018** *Collaborative Research: The Onset of the Galapagos Plume as a Window into the Deep Earth* (**\$354,941** for PI Gazel). Award No. EAR 1826673. **Petrology and Geochemistry Program, National Science Foundation**
- Sampling and Characterization of Volcanic Particulate Matter (PM_{2.5}) from the Current Hawaiian (Kilauea, NE Rift Zone) Eruption for an Assessment of their Potential as a Respiratory Hazard* (**\$19,980** for PI Gazel). **Rapid Response Fund of the Cornell Atkinson Center for Sustainable Future**
- 2017** *Solving the Mystery of Bermuda: Implications for intraplate magmatism* (**\$232,183** for PI Gazel). Award No. OCE 1756349. **Marine Geology and Geophysics Program, National Science Foundation.**
- Understanding diversity in Martian magmatism: Modeling the formation of felsic and alkaline igneous compositions from in-situ data collected on Mars* (**\$150,462** for co-PI Gazel), Award No. 16-MDAP16_2-0029, **Mars Data Analyses Program, National Aeronautics and Space Administration.**
- 2016** *Biology meets subduction A Collaborative and Multi-disciplinary Deep Carbon Field Initiative* (**\$36,898** for collaborator Gazel) **Sloan Foundation, Deep Carbon Observatory Initiative.**
- Near continent intraplate magmatism in the Atlantic: Implications for mantle dynamics and melting* (**\$335,000** for PI Gazel). Award No. EAR 1802012, **Collaborative Studies of the Deep Earth Interior Program, National Science Foundation**
- 2013** *Virginia's Volcanoes: A Window into Eastern North America Mantle Processes* (**\$271,682** for PI Gazel). Award No. EAR 1249412, **GeoPrisms Program, National Science Foundation.** Co-PI: Elizabeth Johnson, James Madison University.
- 2011** *Evolution of the Galapagos Mantle Plume* (**\$513,347** for PI Gazel) Award No. EAR-12019033 National Science Foundation, **Petrology and Geochemistry Program, National Science Foundation.** Sub-contract: Cornelia Class, Lamont-Doherty Earth Observatory of Columbia University.
- 2010** *Geochemistry of the Cretaceous Seaway Closure in Central America* (**\$198,347** for PI Gazel) Award No. EAR-1019327, National Science Foundation, **Tectonics Program, National Science Foundation.** Co-PI: Jonathan Snow, University of Houston.

RESEARCH GROUP

Current Research Group

Jacob Klug, Postdoctoral Research Associate (Ph.D., University of Wisconsin Madison) Research Project: Biological acceleration of ultramafic rocks dissolution and carbonation.

Ellyn Huggins, Postdoctoral Research Associate (Ph.D., University of Nevada Reno) Research Project: Volatile budgets of Mars from novel meteorite measurements.

Maxim Gavrilenko, Postdoctoral Research Associate (Ph.D., Rutgers University) Research Project: Assessment of geologic hydrogen potential from ultramafic rocks.

Kyle Dayton, Ph.D. student. Research Project: Reconstructing the plumbing system of mafic eruptions with melt and fluid inclusions.

Jonathan Bixler, Ph.D. student. Research Project: Volatile budgets, explosivity, and plumbing system of Hawaii volcanoes.

Valentina Villanueva, Ph.D. student. Research Project: Volatile budgets and decompression rates of mafic explosive eruptions of mafic Plinian eruptions.

Peiliang Ying, MEng. Research Project: Fluid inclusion record of the Adirondacks apatite-chromite deposits

Natalia Pszeniczny, undergraduate student. Research Project: Volatile fluxes and plumbing system of Mid- Ocean rifts from melt and fluid inclusions.

Former Postdocs

Jonas Biren, Postdoctoral Research Associate (Ph.D., University Orleans) Research Project: Emission Spectroscopy of Lava Planets from *in-situ* experiments

Adrian Hornby, Postdoctoral Research Associate (Ph.D., University of Liverpool) Research Project: Impact of Volcanic Ash in the Earth System, nano particles from volcanoes. *Currently Staff Scientist at University of Texas Health Science Center at Tyler.*

Emily First, Postdoctoral Research Associate (Ph.D., University of Hawaii) Research Project: Solid Ground – Developing a Spectral Database for Exoplanet Research. *Currently Assistant Professor at Macalester College.*

Brian Balta, Postdoctoral Research Associate (Ph.D., Caltech) Research Project: Engineered Micro-organisms for Enhanced REE Biomining Separations. *Currently Research Scientist at the Lunar and Planetary Institute, NASA.*

Chelsea Allison, Postdoctoral Research Associate (Ph.D., Arizona State University). *Currently Postdoctoral Associate at Baylor University.*

Jacob Setera, Postdoctoral Research Associate (Ph.D., Rutgers University). *Currently Research Associate NASA.*

Marc-Antoine Fortin, Postdoctoral Research Associate (Ph.D., Rensselaer Polytechnic Institute). *Currently Research and Development Scientist at Corning Inc.*

Swetha Venogopal, Postdoctoral Research Associate (Ph.D., Clermont-Ferrand University). *Currently Lecturer at Trinity College, Ireland.*

Former Graduate Students:

Wenwei Liang - MEng. Cornell ('24). Magma storage below Haleakala volcano using CO₂ densities from fluid inclusions in olivine. *Currently Ph.D. student at the University of Texas, Austin.*

Peiyu Wu - Ph.D. Cornell ('24). Currently working on consulting.

Charlotte DeVitre - Ph.D. Cornell ('22). *Currently Postdoctoral Associate at UC Berkeley.*

Aristides Alfaro M.S. - Cornell ('20). *Research Assistant at the Geological Research Center at the University of Costa Rica.*

Lowell Moore. - Ph.D. Virginia Tech ('19). Currently, *Electron Microprobe Laboratory Manager, Virginia Tech.*

Jarek Trela - Ph.D. Virginia Tech ('17). *Currently, State of Illinois Economic Geologist, Illinois Geologic Survey and University of Illinois Urbana-Champaign.*

Sarah Mazza - Ph.D. Virginia Tech ('16). *Currently Assistant Professor at the Geoscience Department at Smith College.*

Pilar Madrigal - Ph.D. Virginia Tech ('16). *Currently Associate Professor at the Central American School of Geology of the University of Costa Rica.*

Lisa Whalen - M.S. Virginia Tech ('16). *Moved to a Ph.D. with metamorphic petrology group at Virginia Tech.*

William Whalen - M.S. Virginia Tech ('16).

Dennis Zamboni, visiting Ph.D. Virginia Tech ('16) student from University of Naples Federico II, Graduated April 26, 2016. Currently, Science high school teacher in Italy

Former Undergraduate Students

Claire Bush: undergraduate researcher (Earth and Atmospheric Sciences). Research Project: mineral characterization and chemical composition of volcanic ash - Impact of Volcanic Ash in the Earth System. Spring 2021-Spring 2022.

Jonathan Letai, undergraduate researcher (Physics. Research Project: spectroscopic signatures of granitic rocks. Spring 2022

Sophia Bergen: undergraduate researcher (Civil and Environmental Engineering). Research Project: mineral and chemical evolution on the 2021 eruption of La Palma, Canary Islands. Spring 2022

Alexander Wares, volatile constraints on intraplate volcanoes, sample curation and preparation, summer 2018-spring 2019.

Carla Walton, undergraduate researcher (Chemical Engineering), summer 2019

Christopher Owusu-Sampah (Multi-Cultural Academic Opportunities Program -summer intern 2014), olivine forsterite content determination by Raman spectroscopy. MS degree in Systems Engineering, George Mason University.

Darren Thomas, juvenile magmatic components of the current Turrialba Volcano eruption in Costa Rica, graduated Spring 2017.

Ian Godwin, high-precision olivine trace-element determinations from komatiites, large-igneous provinces and oceanic islands. Graduated in Spring 2016 and accepted a position in a consulting firm.

Lacey Costello, water contents of clinopyroxene xenocrystals from intraplate and subduction settings. Graduated in Spring 2016 and currently a graduate student at Southern Illinois University under Justin Filiberto in experimental petrology.

Leigh Shannon, geochemistry the Coastal New England Magmatic province as precursor of the break-up of Pangea, graduated Spring 2017.

Lisa Whalen, Supercontinent inheritance in the Break-up of Pangea and the Central Atlantic Magmatic Province (now PhD. student).

Lydia DeAngelis, melt inclusions studies and volatile contents of rejuvenated stage lavas from Maui, Hawaii, graduated Fall 2016.

Telemachos Manos, summer research intern 2015, Ph.D. Texas A&M in structural geology and tectonics under Nicholas Perez.

Tyler Bagley, undergraduate researcher in 2021 (Earth and Atmospheric Sciences, Cornell)

William Whalen, major and trace element composition of Galapagos accreted terranes in Central America (accepted into MS program at Virginia Tech).

COURSES TAUGHT

Cornell

- EAS 6920 Forecasting **Volcanic Events** (2022) -co-taught with Matt Prichard
- EAS 3090 **Earth Materials** (2021, 2022, 2024) – New course designed in 2021
- EAS 4580 **Volcanology** (2019, 2020, 2021, 2024)
- EAS 5530 **Advanced Petrology** (2018, including a field trip to the Canary Islands during the winter break)
- EAS 7570 **Current Research in Petrology and Geochemistry: Subduction Processes** (2019, 2020)
- EAS 4540 **Petrology and Geochemistry** (2018)

Virginia Tech

- GEOS 4714 **Volcanoes and volcanic processes** (2012, 2013, 2014, 2015, 2017)
- GEOS 2444 **Geoscience Field Observations** (2014, 2015, 2016, 2017)
- GEOS 5948 **Evolution of a volcanic arc: From seafloor accretion to continental crust production in Costa Rica** (2012)
- GEOS 6704 **Advanced topics in Petrology** (2013, 2015)
- GEOS 6604 **Advanced topics in geochemistry** (2012, 2014)
- **Laboratory Techniques in Geoscience** (join VT –JMU STEM course, 2014, 2015)

FIELD EXPERIENCE

- 2024** Sub-sampling of the most explosive Kilauea eruption on record.
- 2023** Tephro-stratigraphy and sample collection of mafic Plinian eruption from Villarica and Llaima Volcanoes, Chile.
- 2021** Sample collection during the eruption in La Palma, Canary Islands. Stratigraphic sections, and in-situ volcanic particulate matter directly from the air. – Invited to join an interdisciplinary team.
- 2014-2019** Sample collection of tephtras of post-shield and rejuvenated stage magmatism in Hawaii and the Canary Islands.
- 2014-2015** Sample collection in Costa Rica for the LIP stage of the Galapagos Plume Geologic survey of the Galapagos Islands
- 2013** Sample collection sampling of the Aeolian Islands, Italy
Sample collection in Curacao for the LIP stage of the Galapagos Plume

Hydrochemical characterization of the Santa Elena Ophiolite, Costa Rica
Sample collection of Galapagos-related terranes in Panama for the OIB
stage Galapagos Plume

- 2011-2012** Sample collection in accreted Galapagos terranes in Central America
Geologic survey of shield vents and crustal xenoliths sampling in Hawaii
Sample collection and mapping of the Central Atlantic Magmatic Province in
Virginia and North Carolina
- 2010-2011** Sample collection and geologic mapping of the Santa Elena Ophiolite, Costa Rica
Co-led field trip (with students) to the Adirondacks, NY
- 2009-2010** Sample collection of tephros from volcanic fields of the Basin and Range, Western
USA
Sample collection and geologic mapping in the Santa Elena and Nicoya Ophiolites,
Costa Rica
Sample collection from Saint Kitts and Nevis, Lesser Antilles
- 2007-2008** Volcanology mapping of Etna, Eolian Islands, Vesuvius and the Roman Volcanic
Province
- 2005-2007** Sample collection and geologic mapping in Nicaragua and Costa Rica volcanic
front and back-arc
- 2002-2005** Geologic mapping of the Ostional National Wildlife Reserve, Costa Rica
Volcanology mapping of Poas volcano and Sabana Redonda cinder cones
3D Seismic Geophysical Campaign of the Costa Rican –Nicaragua Margin, Meteor
M54/1B (Balboa-Caldera) Bremen University-IFM-GEOMAR

LABORATORY EXPERIENCE

- In-situ LA-ICP-MS for trace-element determination in natural glasses and minerals (with methods development)
- Micro-confocal Raman and infrared spectroscopy for melt and fluid inclusion studies (with methods development)
- In-situ infrared (FTIR) spectroscopy of glasses and minerals (with methods development)
- High-resolution ICP-MS and Thermal Ionization Mass Spectrometry (TIMS) for radiogenic isotopes
- TEM for nano-characterization particles from volcanic eruptions and wildfires.
- XRD, XRF, and ICP-MS for bulk rock major and trace-element determination (with method development)
- Polarized petrographic microscope.

PUBLICATIONS

Years after Ph.D.: 15

Number of peer-reviewed publications: 85

Citations: 3500, H-index=34, i10-index=66, Source: [Google Scholar](#)

INVENTION DISCLOSURES AND PATENTS

- 3- Non-acid Mechanisms of Bioleaching by *Gluconobacter oxydans* - docket 10669
- 2- Non-acid Mediated Mechanisms for Critical Elements Bioleaching Microbes for Biomining Ultramafic Materials – submitted
- 1- Co-generation of $\text{NaREE}(\text{MoO}_4)_2$ and REEPO_4 in multiple habits by solid-solid flux synthesis reactions – in preparation for submission

INVITED TALKS

2024 **Intraplate explosive eruptions fed directly from the mantle**

- University of Arizona, Department of Geosciences
- University of North Carolina Chapel Hill

Syntetic Biology + Mineralogy solution for the Energy Transition Challenges

- University of North Carolina Chapel Hill

2023 **New fluid inclusions frontiers for Volcanic Eruptions**

- University of California Santa Barbara, Department of Earth Science
- University of Oregon, Department of Earth Sciences
- Woods Hole Oceanographic Institution
- Universidad de Chile en Santiago, Departamento de Ciencias Geológicas
- Georgia Tech, Department of Earth and Atmospheric Sciences
- Centro de Geofísica, Universidad Autónoma de Mexico, México, DF

Mineralogy + Synthetic Biology Solutions for the Energy Transition

- Department of Chemical Engineering, Columbia University
- Department Seminar, Material Science and Engineering, Cornell University

Contrasting the Crustal Composition of Earth and Mars

- University of California Santa Barbara, Department of Earth Science

2022 **Solving the mystery of Bermuda**

- University of Wyoming, Department of Geology and Geophysics,
Distinguished Lecture

New Frontiers in Melt and Fluid Inclusions for Volcanic Eruptions

- University of Rochester, Department of Earth, and Environmental Sciences Seminar Series
- Lamont Doherty Earth Observatory, Geochemistry Seminar

2021 **Active serpentinization in the Santa Elena ophiolite (Costa Rica) as a testbed for in-situ carbon storage**

- ARPA-E CO₂ Mineralization for *in situ* Storage and *ex situ* Enhanced Metals Recovery Workshop.

2019 Phanerozoic komatiites from a reservoir at the core-mantle boundary

- Goldschmidt Conference, Barcelona, Spain.

Element Recycling in the Deep Earth

- Gordon Research Conference on the Interior of the Earth

2018 The secular evolution of the Galapagos mantle plume

- *Key Note Talk*, Goldschmidt Conference, Boston, US.

Using major and trace elements to understand mantle melting

- Invited lecture, Collaborative Institute for the Deep Earth Interior (CIDER)

Life cycles of mantle plumes

- Syracuse University, departmental seminar.

Making juvenile continental crust.

- University of Miami, Ohio, departmental seminar

2017 The hottest Phanerozoic magmas and the survival of Archean reservoirs

- *Kuno Lecture* at the European Geophysical Union, Vienna, Austria

Life cycles of mantle plumes

- Lamont-Doherty Earth Observatory of Columbia University, institutional colloquium
- Earth and Planetary Science Department, University of Tennessee, departmental seminar

2016 Freshly brewed continental crust.

- School of the Earth and Ocean Sciences, University of Hawaii Departmental Seminar
- Stanford University, Geology Department Seminar
- Brown University, Department of Earth, Planetary and Environmental Sciences, Departmental Seminar
- University of Tennessee, Earth and Planetary Science Department seminar
- Penn State, Department of Geosciences Colloquium Series

2015 Freshly brewed continental crust.

- American Geophysical Union Fall Meeting, San Francisco.

Sediment melting at the edge of the Aeolian Slab: Implications for hot vs cold subduction zone models

- Invited Talk Subduction Theoretical and Experimental Institute, GeoPrisms, Redondo Beach, California

CO₂ in melt inclusion bubbles

- Deep Carbon Observatory: Fluxes and Reservoirs meeting, Berkeley, California

The youngest magmatic event in the Eastern North American Margin

- Invited talk, Earth Scope National Meeting, Stowe, Vermont.

Generation of Continental Crust in oceanic arcs: Department Seminars

- California Institute of Technology, Division of Earth and Planetary Sciences Seminar Series
- Texas A&M, Department of Geoscience Seminar Series
- University of South Carolina, School of the Earth, Oceans and Environment, Colloquium Series

2014

Evolution of Mantle Plumes.

- Princeton University, Earth Science Department Seminar.

The Central American Isthmus Closure and Generation of Continental Crust.

- Smithsonian Tropical Research Institute, Panama, Institute Seminar Series.

Coast to Coast Intraplate Magmatism and the Composition of North American Mantle

- Rutgers University, Department of Earth and Planetary Sciences, Departmental Colloquium.

The Intra-continental Rift of Rodinia: Neoproterozoic equivalents in the Manhattan Prong,

- Invited talk, Manhattan Prong Workshop, Columbia University.

2013

Recycled oceanic crust and the thermal evolution of mantle plumes.

- Gordon Research Seminar, Frontiers of Science in the Interior of the Earth, Mount Holyoke College, Massachusetts.

Melting processes in the Basin and Range, Western United States: Implications for the evolution of the lithosphere-Asthenosphere boundary.

- Cornell University, Department of Earth and Atmospheric Sciences Colloquium.
University of New Mexico, Department of Earth and Planetary Sciences Seminar Series.
- University of Southern Florida, School of Geosciences Colloquium.

- University of California, Santa Cruz, Department of Earth and Planetary Sciences Colloquium.

2012 *Calibration of thermobarometry (T-P) estimates with H₂O and fO₂ data from melt inclusions: Results from the Big Pine Volcanic Field, Western USA.* **Goldschmidt Conference**, Montreal, 2012.

The extensive record of Galapagos-tracks interaction with the Central American subduction system: A natural laboratory for the evolution of continental crust, **Final SFB-574 Colloquium**, Lübeck, Germany, May, 2012.

Lithosphere vs. Asthenosphere mantle sources at Big Pine Volcanic Field Results from the Basin and Range, Western USA. **University of North Carolina Chapel Hill** and **James Madison University**, Departmental Seminar.

2011 *What is the Lithosphere-Asthenosphere boundary from a petrological perspective: Results from the Basin and Range, Western USA.* **Lithosphere-Asthenosphere Institute**, Portland Oregon, Sept. 2011.

Melting Conditions with PRIMELT: Examples and Future Work. **Goldschmidt Conference** (abs:2198), Prague, 2011.

Secular cooling in mantle plumes. **Smithsonian Institution**. Mineralogy Department Seminar.

Making continental crust by subduction-plume interaction. **Northern Illinois University and University of Houston**. Departmental Colloquium.

2010 *Lithosphere-Asthenosphere boundary from a petrological perspective: Results from the Basin and Range, Western USA.* **AGU Fall Meeting**.

Effects of the long-term interaction of the Central American Subduction Zone with Galapagos Plume tracks. **Goldschmidt Conference**, Knoxville, Tennessee.

2009 *Life cycles of mantle plumes: A perspective from the Galapagos Plume.* **Circum-Caribbean Tectonics**, Cardiff, Wales, United Kingdom and **AGU Fall Meeting**.

SELECTED MEETING PRESENTATIONS (last 2 years)

- ♦ Undergraduate student from my group
- * Graduate student from my group
- ** Graduate student external advisor/committee member
- + Postdoc from my group

WORKSHOPS (last five years)

- 2023** **ARPA-E, Department of Energy**, Geologic Hydrogen, Washington DC.
DARPA, Department of Defense, Separation and Purification of Rare Earth Elements (SPREE) Workshop -Department of Defense, Washington D.C.,
- 2021** **ARPA-E, Department of Energy**, Ssequestering Carbon with Hybrid Employment of Mineral Assets (remote) – **Invited talk**
- 2019** **Exoplanets Research** – Joint American Geophysical Union (AGU) and American Astronomy Society workshop on progress and challenges on exoplanet search with the goal of integrating the fields of planetary science with astronomy. Reykjavik, Iceland
- Water in the Mantle**, how much water is in the mantle and how it is stored in the biggest reservoir of our planet? Lamont Doherty Earth Observatory, Palisades, NY.

SERVICE AND SYNERGISTIC ACTIVITIES

Professional Service

2021-2023

- Committee member of the Magmatic Drives of Eruption working group, Subduction Zone 4D (SZ4D)
- SZ4D and Andes Net array definition workshop in Chile (2023)

2018

- Committee member, AGU Kuno Award committee

2018

- Senior Participant, CIDER conference
- Organization committee, Workshop on Community Experiments on Volcanology
- Associate Editor, Geochemical News
- Committee member, AGU Kuno Award committee
- Geology, EPSL, Contributions to Mineralogy and Petrology

2014-2017

- Associate Editor, American Mineralogist
- Editorial Board, Frontiers in Earth Science
- Associate Editor, Geochemical News
- Session Convener at AGU Fall Meeting (Arcs from the Inside Out and Collaborative Studies of Mantle Melting, Integrative Studies of Continental Crust Evolution)

2013

- Session Convener at AGU Fall Meeting
- Panel member for Marine Geology and Geophysics Program of NSF

2012

- Session Convener at AGU Fall Meeting
- NSF Earth-Cubed workshop Carnegie Institution
- IODP workshop to drill into the middle crust in the Marinas Arc, Hawaii

2007-2011

- Field trip leader to Costa Rican volcanoes and oceanic complexes, joint effort for students and faculty from Rutgers, LDEO, and the University of Costa Rica

2007

- Volcanology field trip leader for Workshop to Integrate Subduction Factory and Seismogenic Zone Studies in Central America, Costa Rica
- Field trip leader for the TROPICS (Transformation of Plateaus into Continents) NSF Continental Dynamics NSF-supported planning meeting in the Talamanca Cordillera, Costa Rica

University Service

2022-2023

- Committee Chair for the Open Rank Faculty Search in Critical Elements Geoscience
- Member of the EAS Strategic Planning and Curriculum Committee and reporting
- College of Engineering Design Directions committee member
- Host lab presentations and open house for Pre-Collegiate Summer Scholars Program (PSSP)
- Mentoring Committee Member for early career faculty, Nicole Fernandez, Grace Barcheck, and Seth Satiel.

2021

- Member of the EAS Strategic Planning and Curriculum Committee and reporting
- Design and supervision of the construction of the new microscopy teaching laboratory in Snee 1149
- Systematic organization of the teaching and museum collections in the summer of 2021 and the supervision of graduate student assistants Kyle Dayton and Peiyu Wu involved in this project
- Host lab presentations and open house for Pre-Collegiate Summer Scholars Program (PSSP)
- Mentoring Committee Member for early career faculty, Dr. Nicole Fernandez

2018-2023

- Curator of the Earth Science Heasley Museum
- CoE Facilities and Renovation Assessment Committee
- Director of the Cornell Mass Spectrometry Facilities (CMaS)
<https://cmas.eas.cornell.edu>

2018-2021

- Director of Undergraduate Studies, EAS
- CoE Belonging at Cornell Committee Member
- CoE Facilities and Renovation Assessment Committee
- Committee Chair, Geochemistry Search Position
- Search Committee Member, *Wold Family Professor* for Sustainable Use of Mineral Resources
- Graduate Admissions Committee Member

2013-2015

- VT Volcanoes at the Virginia Science Festival with an exhibit and hands-on activities on volcanoes and melting processes
- Co-hosted the visit of Minister of Science and Technology of Costa Rica to Virginia Tech
- International Faculty Development Program- Ecuador and Galapagos
- Mentor for undergraduate and graduate students in the Multicultural Academic Opportunity Program (MAOP)
- Field trip organizer for first year graduate students

2011-2017

- Public Affairs Committee (graphic design for department poster and conferences exhibits)
- Museum and Public outreach committee member
- Diversity Committee (work to fulfill University's goals in diversity and inclusion)

2011-2012

- Graduate Student Affairs Committee (in charge of departmental student awards, synthesis/statistics of committee rankings for awards, summer support, RA's)

PROFESSIONAL MEMBERSHIPS

- American Geophysical Union, Geochemical Society, Geologic Society of America, International Association of Volcanology and Chemistry of the Earth's Interior, Mineralogical Society of America.
