Dear Colleague:

The [Air & Waste Management Association](#) (A&WMA) is a nonprofit, nonpartisan professional organization that provides training, information, and networking opportunities to 9,000 environmental professionals in 65 countries. The Association's goals are to strengthen the environmental profession, expand scientific and technological responses to environmental concerns, and assist professionals in critical environmental decision making to benefit society.

The A&WMA–[Georgia Chapter](#) is composed of environmental professionals throughout the state. As Chair of the Education Committee, I would like to share a scholarship opportunity with you.

The Georgia Chapter will award at least **two \$1,000 graduate student scholarships** during our December Brown Bag Webinar, the specific date to be determined. We will award the scholarships to graduate students conducting research on topics related to air quality, waste management, pollution prevention, environmental policy/compliance/law, sustainability, or a related topic. The scholarship recipients will also be awarded a complementary one-year student level membership to the national A&WMA.

Interested graduate students must submit a brief abstract describing their research no later than **Friday, November 8, 2021**. The recipients will be recognized during our December Brown Bag Webinar and will have an opportunity to make a brief presentation describing their research. The scholarships will be awarded ahead of the brown bag in coordination with the GA AWMA Treasurer and recipient.

Abstracts should be e-mailed to gachapterawma@gmail.com. They should be only one page and organized into the following sections: 1) Description of the thrust of the research, 2) Research methods, and 3) Benefits of the research. The applicants should also complete and email the attached abstract submission form along with abstract submission. If you have any questions, please contact me at gachapterawma@gmail.com or (470)524-2179.
