FACULTY SEARCH

ARCHITECTURAL ENGINEERING AND ENGINEERING CORE WITH A FOCUS IN THE DESIGN OF BUILDING STRUCTURES AND A SECOND EMPHASIS IN CONSTRUCTION MANAGEMENT

Oklahoma State University School of Architecture is accepting applications to fill one tenure-track faculty position at the Assistant Professor level in Architectural Engineering. The successful candidate will teach structural engineering design courses as well as core engineering courses (Statics or Strengths), and have a second emphasis in construction management. Additionally, the candidate may offer a specialty course in a technical topic closely related to building design, and is expected to develop a creative and scholarly agenda that contributes to the mission and goals of the school, college, and university.

About the OSU School of Architecture

The programs in the School of Architecture are ABET and NAAB accredited and depend on a dedicated faculty of 18 professors working as a close-knit team and serving a student body of 350. For 113 years, the program has been professionally educating architects and architectural engineers, combining a strong design and problem-solving curriculum with an emphasis on technology and building systems integration. The School's state-of-the-art facilities support faculty and students in their educational endeavors and scholarly pursuits. The School of Architecture fosters a collegial atmosphere among the faculty, most notably through team-taught design studios. Collaborative and multi-disciplinary research and scholarship are valued and embraced through the School's integration of accredited undergraduate programs in architecture and architectural engineering as well as its role in the College of Engineering, Architecture and Technology.

Contact Professor Bilbeisi, the Head of the School of Architecture, at suzanne.bilbeisi@okstate.edu.

Candidate Credentials

Preference will be given to candidates who have a Master of Architectural Engineering or equivalent advanced engineering degree with a professional license (PE or SE) and significant practice experience, or those who have a Ph.D. Candidates must be able to teach introductory and advanced level structural engineering courses and core engineering courses, instruct students in the methods and applications of professional practice, aid students in professional design projects and thesis research, and contribute to architectural design studios.

Required Application Materials

Interested applicants will apply online at <https://jobs.okstate.edu>, and provide the following via electronic PDF files:

- Curriculum Vitae
- Statement of Teaching Philosophy (1 page)
- Statement of Scholarship Interests (1 page)
- 10-15 sheet portfolio of professional/creative work and/or student design work
- 3 references, with contact information

Apply at <https://hr.okstate.edu/consulting-services/talent-acquisition/careers.html>, for position 10509.

Timeline

Screening of applicants will begin January 1, 2022 and will continue until the position is filled. The successful candidate will join the faculty August 1, 2022. Please submit questions to the Chair of the Search Committee, Professor John Phillips at john.j.phillips@okstate.edu.
