We are currently seeking a Civil Engineering Intern (Roadway) for Atlanta.

The **Roadway Engineering Intern** will collaborate with and be mentored by top Engineering associates on our team. The selected candidate will work with associates assisting the Atlanta Highway Design Group on a variety of conventional and design-build projects that combine innovative roadway design with a strong knowledge of technical standards to exceed client expectations and provide cost-effective solutions. This is an amazing opportunity to gain hands-on experience and a better understanding of the Transportation Engineering Industry.

Responsibilities:

- Perform routine calculations requiring knowledge and application of basic engineering principles
- Prepare and revise plan documents details
- Collect and prepare data for evaluation
- Perform engineering with the use of computer-assisted engineering software and equipment
- Provide support to engineering and project management associates

Qualifications:

- Current student pursuing a Bachelor's or Master's degree in Civil Engineering from an ABET accredited university;
- 3.0 GPA or above
- Excellent written and verbal communication skills
- Ability to work on multiple assignments simultaneously
- Strong work ethic aligning with the company's [mission and core values](#)

Preferred Qualifications:

- Prior internship or related experience
- AutoCAD and / or Microstation experience
- Experience or exposure to Georgia Department of Transportation (GDOT) plans preparation and design standards
- Specific interest in Transportation / Roadway Design

If this sounds like the role for you and you're ready to join an amazing team, please apply at www.rsandh.com/careers.
