

ME4182 / MSE4723

Summer 2020

You are part of an experiment to create the most high-profile, rewarding, expensive, hard-working course at Georgia Tech and a model for design education at engineering schools worldwide

<http://mecapstone.gatech.edu/>

What is Capstone Design all about?

Goals for the course:

1. Identify an unmet need

WHAT'S THE PROBLEM?

2. Invent/design something useful

CREATIVITY, INNOVATION

3. Apply your analytical knowledge to design it

ANALYTICAL SKILLS

4. Prove it will work (Simulate it, build it, test it, virtually, physically)

MODELING AND HANDS-ON

5. Document your process (reports, presentations)

6. Demonstrate it at the Expo

7. Give to sponsor for use or patent it and start company

Project Types

1. External company sponsored

2. Faculty Research Lab

3. Your own idea!

- For types #1 and #2, check out currently available projects (more are being added) here:
<http://mecapstone.gatech.edu/marketplace>.
- For guidance on how to use the online portal, see this:
<http://mecapstone.gatech.edu/howto>
- Examples of past projects are here:
<http://expo.gatech.edu/projects/>

Elements of a Good Student Project

- What's the problem?
 - NOT “We're going to design a better mousetrap”
- Creative/Innovative - not just an assembly of off-the-shelf parts (room for novelty)
- Lends itself to analysis
- Sufficient scope for senior design
- Team should have or acquire the skills to complete the project.
- Produce a proof-of-concept and learn from it
 - Design revisions
 - Validate design decisions

How to form a team?

- Team sizes are 4-6 students per team. There are 60 MEs and 3 MSEs registered as of 4th May.
- Find team members
 - Based on project interest on <https://mecapstone.gatech.edu/marketplace>
 - Based on skills and experience on <https://mecapstone.gatech.edu/marketplace>
 - Self-identified/assembled during lab meeting on 12th May.

How are teams matched to projects?

- Two avenues
 - Bid for a sponsored project
 - Propose your own project
- Teams are matched to projects and to faculty (see the FAQ [here](#))
- Even if you plan on bidding for sponsored projects, should have a “Plan B (C, and D)” project idea of your own

REMINDERS

1. Form your team ASAP!
 - Visit <http://mecapstone.gatech.edu/marketplace> to see the roster and find team members.
 - You may also use the class Piazza (via CANVAS). You can post about yourself and what you are expecting from team members here: <https://piazza.com/class/k8nt6epa8co5de?cid=6>.
2. Attend 1st Studio on Monday, 11th May at 5:00 pm on Bluejeans.com. The link is posted on CANVAS.
3. Attend 1st Lab session on Tuesday, 12th May from 12:30pm with **your project ideas**. You will only have this session as an interactive opportunity to present your project ideas to the class!
