Instructor	Text Responses
	Question: Comments about student effort
	Dope
	Question: Course best aspect

I thought that the lectures prepared me sufficiently for the assignments but that the assignments were still difficult enough to be still be challenging my interest. I also loved that the professor was willing to change the due date of assignments when he knew we needed more time to perfect our truly felt that the level of difficulty was close to perfect, and I wouldn't change anything about the assignments. Very interesting topic and Pascal is great Amazing professor, and really cool topic Lectures were incredible and I learned so much. Amazing professor. Creat ed a great class environment Pascal is majestic Question: Course improvements Maybe have a better set schedule at the beginning of the semester NA There could be better scheduled office hours. Couldn't be better Question: Other comments about quality of course Best course I've taken Question: Other overall comments The level of interaction that the professor required throughout the lectures is one of the main reasons that I loved the course so much. He could to was losing us and would be sure to ask questions to get us involved and thinking about the topic again. Question: Instructor greatest strength His passion for the subject matter along with his desire for us to share that passion is definitely his biggest strength. He wanted us to think about was teaching and truly understand it in order to be able to apply it ourselves and think it was cool that constraint programming could do so much loved that he took the time to try to get to know us. I have only had one other professor bother to try to learn my name, and it just makes me feel respected and want to give him my attention when he is able to call on me specifically and ask for my thoughts on the current topic. Van Hentenryck Van Hentenryck Passionate about the subject

Van Hentenryck SO enthusiastic about course content and an overall super fun person	
Van Hentenryck An amazing and knowledgeable teacher with a great personality who made the class such a real fun time that you can't miss!	
Van Hentenryck Very funny, smart and passionate professor. Material was structured to be super interesting	
Van Hentenryck He knows what he teaches	
Question: Instructor improvements	

Van Hentenryck	NA
Van Hentenryck	Could go slower sometimes in explaining concepts at a more basic level
	Question: Instructor other comments
Van Hentenryck	Incredible teacher, really enjoyed this class
Van Hentenryck	My favorite professor at Georgia Tech so far. So enthusiastic about the subject and of course very brilliant, but never condescending when students ask questions. Very good at explaining and helping us understand concepts. And so funny!!
Van Hentenryck	He is the best professor I have had the privilege of having during my time here at Tech. I would take any course he taught just to get the pleasure of his teaching style and personality again. I can't compliment him enough.
Van Hentenryck	No feedback on assignments but haven't gotten not a 100 yet
Van Hentenryck	Best course I took at Georgia Tech. Thanks so much for sharing your knowledge on the topic with us in an entertaining and enlightening way. The case studies, such as the port, were particularly enjoyable. Thanks for a great semester
