## MUHAMMAD ALI PERVAIZ

---

[HTTPS://WWW.LINKEDIN.COM/IN/MUHAMMADPERVAIZ1976/](https://www.linkedin.com/in/muhammadpervaiz1976/)

---

### **Required Skills:**

Mobile App, Web Development,  
Stand Alone App Development,  
Human Centered Design

### **Preferred Team Communications:**

Skype or Conference call

### **Data Sources:**

Georgia Tech synthetic data will be  
sufficient for the project.

### **Other Items:**

Project has timezone flexibility.  
Mentors and students will  
determine a good time for virtual  
meeting

---

## APP FOR CONSOLIDATING AND COMPARING PRICES ON DIFFERENT DISCOUNT DRUG PROGRAMS

---

A variety of drug discount program are available in all states in USA. For a consumer who wants to pay out of pocket, these are an essential for savings. However, the discount these program offer may differ for each medication. Some of them may in addition offer coupons and the discounts may vary amongst different pharmacies. A consumer may have to go to different sites to find the best deals. A single website, where a consumer can compare prices across all discount cards can be very beneficial

---

### PROJECT OBJECTIVES

---

1. A single website akin to bizrate where a consumer can compare drug prices along different discount programs.
2. Ability to run a search across multiple meds with results which can be sorted according best prices for all medications together or all medications separately.
3. Using industry standards to communicate across platforms so that in the future the website can be integrated into EHR.
4. Ability to create your own account to keep track of meds

---

### SUCCESSFUL PROJECT

---

Develop a functional website.

---

### **Intellectual Property:**
