
KUHU GUPTA

kuhu.gupta@gatech.edu

Required Skills:

HTML, JavaScript, Web Application, Responsive Design, Python

Preferred Team Communications:

Conference Call, to be discussed

Data Sources:

To Be discussed.

Other Items:

Project has time zone flexibility. Mentors and students will determine a good time for virtual meeting

Team Info:

Needs a Developer, DBA, Project Manager. Allows one team of 4-6 members.

TOBACCO TRACKER

Smoking isn't a healthy habit, but many people still pick it up even though it is the leading cause of preventable disease and death in the United States. It is really important to track the amount of tobacco an individual is taking in. A web application which tracks the content of tobacco a person is taking in.

PROJECT OBJECTIVES

The project is to scan the bar code of cigarette box and collect the content of tar, nicotine and carbon monoxide and enter the number of cigarettes consumed.

The application should prompt the health risks at current values of tar, nicotine and carbon monoxide for that individual.

SUCCESSFUL PROJECT

Aesthetically pleasing web application. Information is presented to the user in an intuitive manner.

Intellectual Property: None
