
JOHN LEM

jlem3@gatech.edu

Required Skills:

Java, iOS, Android , Mobile,

Preferred Team Communications:

Conference Call, to be discussed

Data Sources:

To be determined

Other Items:

Project has time zone flexibility.
Mentors and students will determine a good time for virtual meeting

Team Info:

Needs a Developer, Project Manager. Allows one team of 4-6 members.

AN APP FOR QUITTING SMOKING

The amount of smokers is rising rapidly. Many people want to quit, but are unsuccessful, due to lack of motivation or for whatever reason. An app can be built to visualize the amount of nicotine, and dangerous chemicals that are not in the body to provide motivation to quit smoking, as well as indicate the health benefits achieved as a result.

PROJECT OBJECTIVES

To encourage smokers to quit, or to give extra motivation who are trying to quit.

SUCCESSFUL PROJECT

To be determined

Intellectual Property: None
