

Lot Full Alternate Parking

Definition and Purpose

This defines what permit holders and visitors should do if their assigned parking lot is full.

Rules and Regulations

- Customers must park in their assigned lot unless it is full. If the assigned lot is full, customers may park in a permit stall in the nearest available non-gated lot to their original assignment. **Note that permit holders may not park in the E44 parking location as an alternate out-of-area location**
- Customers must comply with all other parking rules and regulations.
- Customers must immediately notify the PTS office either by telephone (404-385-PARK) or complete the out-of-area form on the web site (<http://www.pts.gatech.edu>)
- Enforcement Officers will be dispatched to investigate the problem (reason for the lot being full).
- Citations for parking in an unassigned lot may be excused only if the lot is full and the customer has filed a complete and immediate out-of-area request at the time it happened.

Restrictions

- Customers must park in designated permit parking stalls only. Gated lots/decks, the E44 parking location, reserved stalls, or meters cannot be used for Lot Full Alternate Parking.
- False Reporting of Lot Full Alternate Parking may result in revocation of parking privileges or towing of vehicles.
