

Professor Hua Zhao FREng

Prof. Zhao is currently the Vice Dean Research of College of Engineering, Design and Physical Sciences at Brunel University London in UK. He was the chairman of the Powertrain Systems and Fuels Group of the Institution of Mechanical Engineers in UK and the Chief Scientist of the National Key Programme on internal combustion engines in China. He is a Fellow of Royal Academy of Engineering (FREng) and Fellow of Society of Automotive Engineering (FSAE). He has published over 350 papers and 6 books on IC engines and laser diagnostics in combustion engines. His research covers both spark ignition and compression ignition engines and their fuels. Over the last two decades, he has carried out collaborative research and development projects with a number of international companies in Europe and China and chaired many international conferences.
