What is PAWS?

Panther Access to Web Services is a GSU tool used by students to register for classes, checking financial aid, ordering transcripts, verifying enrollment status, reviewing holds, and gaining access to grades.

Why is it Important to Register?

It goes without saying that registering for classes is just as important as filing the FAFSA application, because without registration, students will not be able to take the class that gives them the credit hours necessary for graduation. Registering for classes, though overwhelming at first, is nothing more than a few point-and-clicks, enabling a student to get on track to getting their degree.

BEFORE YOU REGISTER...

Prior to registering, a student must accept its terms and conditions in order to proceed. Additionally, students are assigned a time ticket, which provides the time and date for class registration before the start of each semester. Time tickets are found on underneath "My Resources" after clicking on the "Enrollment" tab on the homepage.

A Step by Step Guide to Registering for Your Courses

After signing into your PAWS account, you will arrive at the homepage. In order to access your course listings, you click on the "Enrollment" tab under the GSU logo.

Here you may check your registration status, add/drop/withdraw from classes, view course descriptions, along with changing variable course credits. Click on "Add/Drop/Withdraw Classes", select the appropriate semester, and submit.

The subsequent page will prompt you to choose on the degree, desired subject, course number, title, credit range, as well as days and time of courses. After deciding on the listings, proceed by clicking on "section search."

Here you will find all the courses with their appropriate information where you can check off the box on the far left of the screen to select the desired classes. Once after, you will scroll down to click "Register," allowing you to see whether the registration was successful or not.

Important message to all students

Students must register for all courses by the Add/Drop period (including those that start late in the registered and paid for that course. Students are responsible for dropping courses if they do not plan to be incurred and the course(s) will not appear on the student's transcript. After the Add/Drop period ends, students are required to pay tuition and fees for withdrawn courses.
