8th Annual PANTHERS OF PRESTIGE

Academic Awards Ceremony

It is our privilege to honor the top twenty graduates of the Lufkin Independent School District. We recognize these young men and women for their high scholastic achievement, earning the highest grade point averages among the 2021 LHS graduating class. They also distinguish themselves by participating in extracurricular school activities and in providing service to others in our community. Setting high standards and goals for themselves and through hard work, they have successfully achieved beyond the norm. For their superior achievements, we proudly name these young scholars as our 2021 Panthers of Prestige.

We are also proud to recognize twenty outstanding educators. Each graduate chose the teacher he or she wished to honor as a Teacher of Influence in their personal success. These educators excel in sharing their knowledge, wisdom and guidance to further the quest for learning and the desire for excellence. They represent the teachers of LISD who have gone above and beyond to educate our students.

The Lufkin ISD Education Foundation Board thanks Linebarger Goggan Blair and Sampson, LLP for their generous underwriting of this event. We are grateful that they share our vision of providing teachers the resources to enrich the academic experience for our students and to produce academically outstanding students such as the ones we honor tonight.

Thank you, Linebarger Goggan Blair and Sampson, LLP,
for your support!

Education does not come in a "one size fits all" category. All students deserve to achieve their greatness provided that their education is guided and maneuvered in a manner that meets every child's specific learning style and need. The hope in doing this is that education then becomes a catalyst connecting the gap, making students' dreams their realities. My students have taught me to keep an open mind and strive to be better every day. I want my students to know that they are important and valuable. Many people think teachers don't get enough credit for what they do. I believe the students don't get their due credit. I am but a reflection of my students. - Master of Education from UT Tyler in Curriculum and Instruction with a focus in STEM Education
- 16 years in Lufkin ISD (36 years total in education)

Philosophy:

My teaching philosophy is grounded in two ideas. The first is driven by a quote from Ignacio Estrada, "If a child can't learn the way we teach, maybe we should teach the way they learn." Teaching and education is not one size fits all. Students enter our classroom from different educational backgrounds with a variety of learning styles and interests. We cannot expect all students to learn in the same manner. Secondly, I want students to have the opportunity to give back to the community. Ben Carson says this perfectly, "Happiness doesn't result from what we get, but from what we give."
