

Setting up your Named License Adobe Creative Cloud Software

<p>Go to the https://adobe.com Using your username@sienaheights.edu as a username, for the Adobe login account. You can setup password for your Adobe ID account.</p>	
<p>Under the Select an account: Tap on the Personal Account</p>	
<p>The next menu will give you the option to sign in without a password. Download the app features is listed on the Adobe menu.</p>	
<p>Next, the Adobe menu allows you to have a 2-step verification for an access code through your phone or e-mail.</p>	

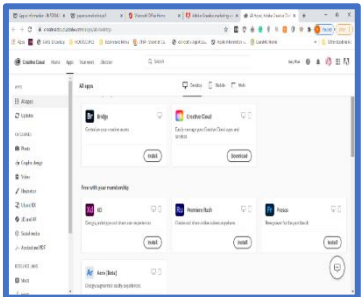

Once you have log into your Adobe account, on the right top of the screen, click on the series of dots, and tap below **Creative Cloud Apps**, and then tap on the **View All** button.

Tap on the Creative Cloud App, the Creative Cloud installation will take a few minutes to download.

From the next menu you can chose your Creative Cloud applications you would like to download on your (2) Name license computers.
From the Creative Cloud App, you will be able to download any updates on your Name computers from this menu, by selecting on the top left corner of the screen, on the updates.

Special Note: The **Adobe Name License grants** you (2) Name licenses to download the software on two different devices, however, you are **not authorized** to use both Adobe Name devices at the same time.
