

## USB Device Manage and Remove from Sidebar

<p>Insert your <b>USB device</b> in the <b>iMac USB slot</b>, located directly on the back side of the iMac.</p>	
<p>From the <b>finder menu</b>, tap on <b>File</b>, and then from <b>file</b>, tap on the <b>new Finder Window</b> menu. May take a <b>few minutes</b> for your <b>device</b> to mount on the <b>Sidebar</b>, which will show up under the <b>favorites section</b>, directly below under <b>Locations</b>.</p>	
<p><b>Removing your device from the SideBar.</b></p>	
<p>Upon <b>removing your USB device</b> from the <b>Apple device</b>, tap on your <b>name of your USB device</b>, drive etc., and select the <b>Control key</b> on the <b>keyboard</b>, and <b>concurrently selecting the right side of your mouse</b> to <b>preview the device menu</b>, allowing you to <b>securely Remove from Sidebar</b>.</p>
