

Adobe Pro remove the page/pages feature

1. Open the Adobe Pro application from the computer.
2. Go to File, and open the **SharePoint Adobe Remove Page** from **your download folder**.
3. Tap the Edit button on the screen's left side.
4. Next, tap on the organize pages icon.
5. The next screen will display on the right side of the menu.
6. Select the **page or pages** you no longer want, all selected pages will be blued, then tap on the **delete trash can**.
7. After the **deleted pages are gone**, save your document with the updated inventory of documents.
