

Join us for an Extraordinary Fall 2023 Training! Psychosocial Oncology Training Academy (POTA)

We are thrilled to unveil our Fall 2023 dates for POTA, an innovative and trailblazing training initiative that equips healthcare professionals with specialized skills to ensure improved access and enhanced quality of care for breast cancer survivors and their loved ones. Through our state-of-the-art hybrid model, our fall workshops provide up to **17 hours of CME/CE credits**, giving you and your health care team an opportunity to enhance your capacity to provide comprehensive psychosocial cancer care.

Scan the QR code or visit potaproject.org to apply and secure your spot!
