## Tissue MicroArray (TMA) Request Form

UAB Tissue Biorepository (TBR) -Pathology Core Research Lab (PCRL)

Department of Pathology

## I. REQUIREMENTS FOR TMA CONSTRUCTION

- IRB approval or documentation of IRB review (e.g., non-human subjects designation or exemption). A COPY OF THE APPROVAL, EXEMPTION DESIGNATION or IRB REVIEW SHOULD BE RETURNED WITH THIS COMPLETED FORM.
  - O TMA Report will include TMA map with either Identified or De-identified information, based on the type of IRB approval of the requester
  - O De-identified report (standard report) will include TMA Map and spreadsheet showing basic information:
    - Donor#
    - Sex/age/race
    - Diagnosis
  - O Identified Report will include identified patient information in addition to the information provided in the standard de-identified report to the requester.
- Acknowledgment in resulting publications of TBR/PCRL along with your affiliation with UAB center
   (e.g. Cancer Center)

For additional information, contact TMA Technician John Ness at johnness@uabmc.edu or by phone at 205-934-4415.

## II. INVESTIGATOR DATA

A.

| Principal Investigator/Title:  |   |
|--|---|
| Department:  | Account:  |
| E-mail Address:  | Phone :   |
| Contact Person:  | Phone:  |
| Contact's E-Mail Address:  |   |
| Collaborative Pathologist (CP)   | Phone:  |
| CP's E-Mail Address:   |   |
| Is the PI a member of the O'Neal Compre. Is your request supported by an O'Neal vo | hensive Cancer Center? ☐ Yes ☐ No<br>bucher? ☐ Yes ☐ No |
| If Yes, please provide a copy of the v   | oucher agreement with the request form.                 |

The information of applying for O'Neal voucher can be found through the link below:

https://www.onealcanceruab.org/giving/oneal-invests/ (scroll down and click on "Shared Resource Voucher")

Drafted 3.14.23 (JN & DW)

| III. | REQUEST SCENARIOS  For more detailed description of Scenarios and Pricing please refer to supplement file of TMA rate  TMA Block Generation  | es   |
|------|--|------|
|      | <ul> <li>□ Scenario 1 : Donor blocks from UAB-TBR or Anatomic Pathology (AP) archived cases with CP</li> <li>□ Scenario 2 : Donor blocks from UAB-TBR or AP with No CP</li> <li>□ Scenario 3 : Donor blocks (human or animal) provided by requester.</li> <li>TMA Slide Sectioning</li> </ul>  |      |
|      | <ul> <li>□ Scenario 4 : Sectioning Request of existing TMA blocks generated/banked in TBR-PCRL.</li> <li>□ Scenario 5 : Sectioning Request of outside TMA blocks provided by the investigator</li> </ul>   |      |
| IV.  | REQUEST DETAILS  |      |
|      | A. TMA Block Generation  1. Source of Donor Blocks and Corresponding H&Es:  □ TBR Blocks & Slides  □ AP Archival Blocks & Slides  AP Pull# (Archival Case Retrieval ID): Blocks Slides  □ Provide your own Donor Blocks & Slides   |      |
|      | <ul> <li>Required Information with Donor Blocks: <ul> <li>List of Donor Block IDs including:</li> <li>Number of Cores per Block</li> <li>Number of Cores per Area of Interest if there are multiple per block (cancer, uninvolved, etc.)</li> </ul> </li> <li>For human tissue, provide the basic demographic information (Sex/Race/Age/Diagnosis) if available.</li> </ul>  | ,    |
|      | <ul> <li>Matching Donor H&amp;E</li> <li>H&amp;E slides should reasonably match the current block surface area <ul> <li>If the H&amp;E does not match the surface, a new H&amp;E should be made.</li> </ul> </li> <li>Circle area of interest for coring and distinguish between different areas of interest (cancer, uninvolved, etc.) with color or notation on H&amp;Es</li> <li>Provide H&amp;Es paired with their block (example image 1 on page 4)</li> </ul>    | st   |
|      | 4. Core Size: □ 2mm* □ 1mm □ 0.6mm  *TMA 2mm core map examples can be found in Image2.1-3 on page 4  |      |
|      | <ul> <li>Control tissues provided by Tissue bank (Tonsil and Spleen are use for orientation contin every block)</li> <li>□ Tonsil □ Thyroid □ Lung</li> <li>□ Spleen □ Placenta □ Uterus</li> <li>□ Liver □ Prostate □ Provide Other</li> </ul>  | trol |
|      | B. TMA Slide Sectioning  1. Source of TMA Blocks:  □ Tissue Bank TMA: TMA#/R#  • If TMA# & R# are not known contact TMA Technician with tissue criteria to chexisting TMA tissue for matches.  □ Outsides TMA  2. Number of Sections per TMA Block:  3. Do you need fresh cuts: □ Yes □ No (slides will come from 4 °C storage)  4. Do you plan to have special or IHC stains done on requested slides in Path. Core Lalue □ Yes □ No What Special Stain/IHC Antibody: | neck |
