

# ACCESSING RECORDS & REPORTING IN ALABAMA FOR CONGENITAL SYPHILIS

## ACCESSING PATIENT HISTORY

- You will need the following information when calling about a patient's history:
  - Patient name
  - Date of Birth
  - SSN (if able)
  - Partner's name (if applicable)

- To access a patient's Syphilis history (including previous titers and treatments), you may call the Alabama Department of Public Health's Bureau of Communicable Diseases at [205-206-5350](tel:205-206-5350).

## WHAT YOU NEED

- All physicians, nurses, medical examiners, hospital administrators, and lab directors are responsible for reporting Notifiable Diseases in Alabama. Syphilis is a Notifiable Disease.
- Report all cases of Syphilis (congenital or non-congenital) through the ADPH Website using the [REPORT CARD for Reportable Diseases/Condition](#).
- Report cases of Syphilis within 3 days of diagnosis.

## REPORTING SYPHILIS

- You will need the following information when reporting:
 

◦ Patient Name	◦ Date of diagnosis
◦ Address/Phone Number	◦ Date of exam
◦ DOB	◦ Data of lab results
◦ Gender	◦ Performing Lab
◦ Race/Ethnicity	◦ Lab Accession number
◦ Marital Status	◦ Specimen test site
◦ SSN	◦ Qualitative results
◦ Patient's Payor Source	◦ Quantitative results
◦ Date of onset	◦ Date of treatment
