

First Foods Study

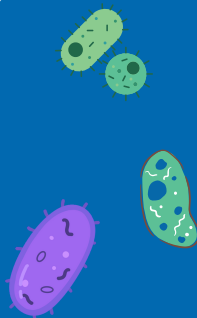

We are conducting an infant feeding study to determine the effect of first foods on changes in gut bacteria in your infant. The study involves two 45-minute visits to the University of Delaware. You will be compensated up to \$285 for your time and provided foods for your infant.

Weeknight and weekend appointments available

Energy Balance & Nutrition Laboratory (EBNL)

The Tower at STAR
Room 215
100 Discovery Blvd
Newark, DE 19713

In order to participate

Your infant must:

- be at least 5 months old
- be exclusively human milk fed
- have not yet begun consuming solidfoods
