CS4DE at the University of Delaware
(also formerly known as Partner4CS)

Paid Professional Development Opportunity

We are seeking teachers who are interested in...

1. Enhancing content area instruction and motivating students by integrating computer science principles, and
2. Increasing opportunities for underrepresented groups - such as females and racially minoritized students - to connect computer science to their lives.

Who should apply?

Delaware content area teachers, technology teachers, and librarians/media specialists in Grades K-8

Teachers will...

- Participate in four full days of professional development (June 20-23, 2023 from 9:00 am - 4:00 pm)
- Learn about computer science classroom tools and culturally responsive pedagogy for teaching computer science

Teacher Pay

$25 per hour for professional development sessions ($700 for full attendance)

*Limited funding available for housing accommodations for Southern DE (Kent & Sussex) teachers. Indicate interest in application.

FAQs

Q: Can I participate if I don’t teach computer science?
A: YES! We are looking for content area teachers.

Q: But I have to teach the content standards...
A: And you will! For example, students can use computer science tools and concepts to:
   - Create concept webs to show main idea and key details.
   - Identify and draw basic and complex shapes.
   - Use graphics and sounds to write and animate character dialogue.
   - Graph points on the coordinate plane.
