Indian River Inlet Bridge
Sussex County, Delaware

Student chapters of professional organizations (ASHE, ASCE, ITE, etc.) have arranged tours of the Indian River Inlet Bridge construction between Dewey Beach and Fenwick Island on Delaware's State Route 1. The new bridge will be 2,600 feet long with a 900 foot clear span some 45 feet above the inlet. Information about the old and new bridge, including live webcams and time-lapse videos are available at www.irib.deldot.gov.

For more photographs of the site visits, see the photo overlay file, which should launch automatically if you have Google Earth installed on your computer. If you have any questions about the site visits or other Delaware T² events, browse our website and contact us at (302) 831-4094.

Sample photos from site visits on June 29, 2009 and October 2, 2009;
