## Delaware T<sup>2</sup>/LTAP Center

### Reading, Using, and Understanding Construction Plans

### Training Workshop

**Thursday, May 11, 2023  
8:30 a.m. to 12:30 p.m.**

**Location:**

Office of Performance Management  
Edgehill Shopping Center  
43 S. DuPont Highway  
Dover, DE 19901

**Workshop Overview:**

Do construction drawings scare the heck out of you? If so, you are not alone. A typical set of plans these days contains an enormous amount of information that cuts across several professional disciplines. However, you need not let them intimidate you and you should not try to read an entire set in one sitting.

In this workshop, intended for beginners and those who have tried and gotten frustrated, we will dissect what is in a common set of plans, learn how to orient ourselves, define some foreign terminology, and practice how to find the information we need.

**Instructor:** Matheu J. Carter, P.E.

**Registration:** Online [here](#). We will confirm registrations approximately two weeks before the workshop. Because space is limited to 24 participants per session, the T<sup>2</sup>/LTAP Center will allocate seats to as many different agencies as possible.

**Fees:** State, local, and federal transportation agency employees – FREE  
Private sector (consultants, contractors, vendors, etc.) - \$50

**Refreshments:** No refreshments will be provided, but please feel free to bring your own.

**Parking:** On-site parking is free. Please do not park in the area reserved for center employees.

If you need more information, please contact the Delaware T<sup>2</sup>/LTAP Center at 302-831-4094.
