Asphalt Construction Best Construction Practices

Training Workshop

Wednesday, March 5, 2025

8:00 a.m. to 12:00 p.m.

Location:

Delaware Biotechnology Institute
15 Innovation Way (*use this address for GPS*)
Room 102
University of Delaware
Newark, DE 19711

Workshop Overview:

Do it right the first time. Often, that's easier said than done, but we are expected to build high quality asphalt pavements and the good news is that we can. Like many other examples, the construction practices we employ can be a determinant factor in how well and how long our pavements perform for us.

This workshop is basic and intended for those with minimal or even no experience with asphalt construction. However, those with greater experience are welcome to attend and contribute to the discussion.

Topics will include: contract management, pre-construction meetings, preparation, materials, transport, placement, compaction, inspection, and safety. We will also discuss the common pavement distresses we are looking to minimize and relate them to the best practices we are discussing.

Instructor: Matheu J. Carter, P.E.

Registration: Electronically [here](#). Because space is limited to 40 participants, the T²/LTAP Center will allocate seats to as many different agencies as possible.

Fees: State, local, and federal transportation agency employees – FREE
Private sector (consultants, contractors, vendors, etc.) - \$50

Refreshments: Morning refreshments will be provided, but feel free to bring your own.

Parking: On-site parking is free.

If you need more information, please contact the Delaware T²/LTAP Center at delawaret2@udel.edu or 302-831-4094
