## Delaware T<sup>2</sup>/LTAP Center

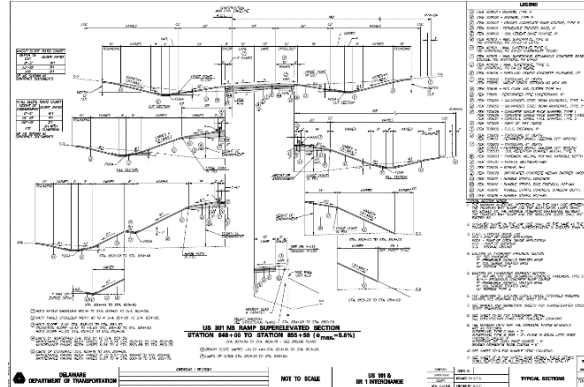

### Reading, Using, and Understanding Construction Plans

### Training Workshop

**Thursday, April 17, 2025  
8:00 a.m. to 12:00 p.m.**

**Location:**

Delaware Biotechnology Institute  
15 Innovation Way (*use this address for GPS*)  
Room 102  
University of Delaware  
Newark, DE 19711

**Workshop Overview:**

Do construction drawings scare the heck out of you? If so, you are not alone. A typical set of plans these days contains an enormous amount of information that cuts across several professional disciplines. However, you need not let them intimidate you and you should not try to read an entire set in one sitting.

In this workshop, intended for beginners and those who have tried and gotten frustrated, we will dissect what is in a common set of plans, learn how to orient ourselves, define some foreign terminology, and practice how to find the information we need.

**Instructor:** Matheu J. Carter, P.E.

**Registration:** Online [here](#). We will confirm registrations approximately two weeks before the workshop. Because space is limited to 40 participants per session, the T<sup>2</sup>/LTAP Center will allocate seats to as many different agencies as possible.

**Fees:** State, local, and federal transportation agency employees – FREE  
Private sector (consultants, contractors, vendors, etc.) - \$50

**Refreshments:** Morning refreshments will be provided, but please feel free to bring your own.

**Parking:** On-site parking is free.

If you need more information, please contact the Delaware T<sup>2</sup>/LTAP Center at [delawaret2@udel.edu](mailto:delawaret2@udel.edu) or 302-831-4094.
