## EEPSA visits OCI Solar Power plant in New Jersey

EEPSA recently organized a field trip to OCI Solar Power plant in, New Jersey. The plant is a 3 MW solar photovoltaic (PV) plant located along Delsea Road in Vineland, New Jersey. OCI Solar Power is headquartered in San Antonio, Texas, and it develops, owns and operates utility-scale solar PV power plants throughout the United State. [More>>](#)

## Career workshop on energy and environmental jobs

On November 6, 2014 EEPSA organized a career workshop with counselors ([Ryan Mooney](#) and [Robin Marks](#)) from UD Career Services. The workshop focused on energy and environmental jobs. The workshop also discussed suggestions/pointers on résumé and cover letters as well as how to leverage social media platforms (LinkedIn, Twitter etc.) for professional networking and profile-building. Job-search and interview resources available at the Career Center were also highlighted. EEPSA also plans 'Alumni Connect' programs in the future.

## Updates on GSG Activities & Events

- GSG Meet & Greet: The next GSG Meet & Greet will be held on Friday, November 14th from 7-9 PM in the Speakeasy! More details available at: [GSG Facebook page](#).
- New GSG [Twitter](#) account and [Facebook](#) page
- "Pitch:90" Contest hosted by DENIN: [Pitch:90](#) is a fast-paced elevator pitch contest in which student contestants showcase their research in 90 seconds or less to a panel of judges and an enthusiastic audience. Wednesday, November 12, 2014 from 6:00 - 8:30pm at ISE Lab Atrium.

## Upcoming EEPsA events

- ThanksGiving Party: November 22, 2014, at 4:00 p.m. Venue: TBA
- CEEP-EEPSA Holiday Party: December 9, 2014. An email announcement to follow soon with date and venue.

## Event Spotlight: Wharton Energy Conference 2014

This year's conference, titled "Energy Future: Bridging the Gap", will be held on Friday, November 14, 2014 at the Union League of Philadelphia. Gina McCarthy, Administrator U.S. Environmental Protection Agency will deliver keynote address. [More>>](#)

## Academic Workshop Series: Research databases

On November 10, EEPsA organized the third Academic Workshop Series this semester. The workshop was hosted by the University Library to assist students with APs, theses and literature reviews. The host, *Tom Melvin*, a librarian who has expertise in energy and environmental research materials, took students through numerous databases that are germane to EEPsA's work, including: Web of Science, Scopus, Environmental Sciences and Pollution Management, GreenFILE and GREENR. For those who are not acquainted with these resources, the EEPsA Board strongly urges you to become familiar.

EEPSA presents a wonderful collage of diversity, with members from various cultural and academic backgrounds. This quality has instilled CEEP with a richness of perspectives that has over the years become a hallmark of intellectual life at the center. It is great to be a member of EEPsA, since this provides a unique opportunity to closely interact with people from all over the world.

## CEEP honored at the MIT Climate Colab

CEEP researchers have been honored at the Climate CoLab's conference, [Crowds & Climate: From Ideas to Action](#), held on November 6-7, 2014 at Massachusetts Institute of Technology (MIT). Climate CoLab is a project at the MIT that crowdsources ideas to address climate change. The CEEP Team, which included Job Taminiau, Kathleen Saul, Gordon Schweitzer (alum) and Sardar Mohazzam won the Judges' and Popular Choice Awards for its proposal entitled "*Democratic Finance: Energy of the People, for the People and for the People.*" They also won the Honorable Mention for their proposal that seeks to instal community-funded solar projects on unused federal rooftop space.
