ASME Student Membership

It's never too early to
Engineer
your **Career**

Join **ASME**

Special events. Cool competitions. Jobs and Internships. Get it all and more with membership...

Join **ASME**, the essential association for engineers and technical professionals.

ASME (The American Society of Mechanical Engineers) is a not-for-profit professional organization that enables collaboration, knowledge sharing and skills development across all engineering disciplines. Founded in 1880, and with over 125,000 members worldwide – including more than 25,000 student members in over 100 countries – ASME is **the most important connection** a mechanical engineer can make.

With ASME student membership, you can join on-campus activities to build your skills, attend special events to network with professional engineers, and access hundreds of valuable resources to jumpstart your career!

Take part in fun student competitions

Develop new skills by collaborating with your peers and compete against the best and brightest
