Eligibility

Anyone affiliated with the University who has a UD ID and password may use this site to purchase a parking permit. Parking permit eligibility is based on information in your student/employee file for the term applying. Guests/Staff Non-UD can create a login and password to purchase online. Please contact our office to ensure the proper customer group is assigned to your account. This manages the permit options that will be offered.

Passport Parking

Parking permits are not valid at Passport spaces unless accompanied by ADA parking privileges and a permit for the lot parked in.

Visitors

Visitors can use this site to purchase short-term visitor passes. A guest log-in is required. Long-term visitor passes can be purchased online, after contacting our office to verify the need for long term visitor parking.

Visitors must purchase their own permits; students and staff are not eligible to obtain permits for visitors.

Permit Information Sheets

A parking permit signifies an individual has been granted the privilege of parking on University property. Ownership of the permit remains with the University of Delaware. Use of the parking permit is not transferable from the registered user.

The individual to whom a permit is registered is responsible for notifying the Parking Services Office within five days of any change in status, i.e., a commuter student moving on campus, resignation of a staff member who is then admitted as a University student, etc. If the change affects the eligibility of an individual to secure a parking permit, the Parking Services Office will determine the required modification and fee (if any). Multiple vehicles can be registered to one permit, but only one vehicle can be parked on campus at a time per permit.
