QUANTIFYING THE IMPACT OF RESEARCH SOFTWARE ENGINEERS

AN IMPORTANT SURVEY QUESTION

Could you give us an estimation of the ratio of the time it took to accomplish a project having a research software engineer's assistance compared to the time it would have taken by the domain scientist to accomplish the research himself?

- 1/4X
- 1/3X
- 1/2X
- Other
- I don't know

BECOME A PRESENTER, TOPICS:

The concrete use-cases of how you have helped a domain researcher in a way that made a difference

The challenges you faced when supporting CDI research.

The Tools that have made a substantial difference in supporting the work of Xperts and domain researchers.
