Wraparound Services for Middle & High School Students

Background & Vision

Over the past several years, the SDWG efforts have focused on early care and K-5 education

- The Work Group Co-chairs are interested in:
 - **Expanding the focus for wraparound services to middle and high school students** through development of a comprehensive plan to support the needs of middle and high school students from the City of Wilmington and northern New Castle County, Delaware.
- The approach for supporting middle and high school wraparound services will be two-fold:
 - **Short-term:** There are available Redding funds that could be put towards wraparound services this year; these funds could be used to support the Boost Initiative. (Boost is a four-district cross collaboration to improve the high school graduation success rate for Wilmington students).
 - **Long-term:** Develop a sustainable, collaborative strategy for supporting wraparound services for secondary education including districts, charters, vo-techs, and WLC alignment.

Motion to Vote

The Social Determinants Work Group moves for a vote on the following item:

Motion - Approve the use of funds from the Redding Consortium budget allocated for the wraparound services to support high school students in the City of Wilmington through the Boost Initiative for the next 3 years.
