

ASSENT TO PARTICIPATE IN RESEARCH

Title of Study: Language Research Registry

Principal Investigator(s): Amanda Owen Van Horne, PhD CCC-SLP

I am asking if you want to be part of a research registry. This form tells you what the registry is for, what you will be asked to do if you want to be in the registry, and the possible bad and good things about this registry.

WHAT IS THIS RESEARCH ABOUT ?

The purpose of this project is to keep a list of people who might want to be in a research study. This list will help us find people interested in participating in studies in the future. We might also use this list to learn more about how people learn and use language by looking at the information we have collected in the future.

We are asking you to be in the registry because you might like to participate in future research studies.

WHAT WILL YOU BE ASKED TO DO?

If you want to participate, we will ask you to let us keep some information about you like your name, address, and phone number, whether you are a boy or a girl, and how old you are. This lets us contact your parent(s) about studies that you could do and NOT contact you about studies you can't do. We will keep this information forever unless you tell us to delete it or get rid of it. Every time we call your parent(s), you can decide if we can keep some of your information, but not call you about studies, or if we should get rid of all of your information.

WHAT ARE THE POSSIBLE BAD THINGS ABOUT THIS PROJECT?

A few things about this project could make you uncomfortable. People might find out information about you or that you are in our list of people who might like to be in a study. We will do our best to keep your information private and confidential so no one else can find out about you.

WHAT ARE THE POSSIBLE GOOD THINGS ABOUT IT?

Being in the registry could make it easier for you to learn about and participate in research studies that interest you. This registry may also help others in the future by making it easier for researchers to find participants for their studies. Future research could help us learn more about people with and without language impairments.

WHO WILL KNOW THAT YOU PARTICIPATED IN THIS REGISTRY?

No one other than the researchers and your parent(s) will know that you are in this registry. If we tell other people about the research we will not use your name.

WILL YOU GET ANYTHING FOR PARTICIPATING?

You will not get any money for sharing your information with us.

YOU CAN CHANGE YOUR MIND ABOUT BEING IN THE REGISTRY

You do not have to say yes. Taking part in this registry is your decision. If you choose to take part, you can change your mind at any time. If you decide later that you don't want be in the registry, nothing bad will happen to you and no one will be upset with you. If, at any time, you decide to stop participating in the registry, please let us know by telling one of the researchers.

INSTITUTIONAL REVIEW BOARD

This research registry has been reviewed and approved by the University of Delaware Institutional Review Board (UD IRB). If you have any questions or concerns about your rights as a research participant, you may contact the UD IRB at hsrb-research@udel.edu or (302) 831-2137.

CONTACT INFORMATION

If you have any questions about the purpose, procedures, or any other issues related to this research registry you may contact the Principal Investigator, Dr. Amanda Owen Van Horne at ajovh@udel.edu or (302) 831-3982.

If you want to participate, and we have answered all of your questions about it, please write your name below.
