

# Overview of Baseline Data for the SPF-SIG Contractors

Darryl Chambers, SPF-SIG Evaluator  
Center of Drug and Alcohol Studies  
University of Delaware

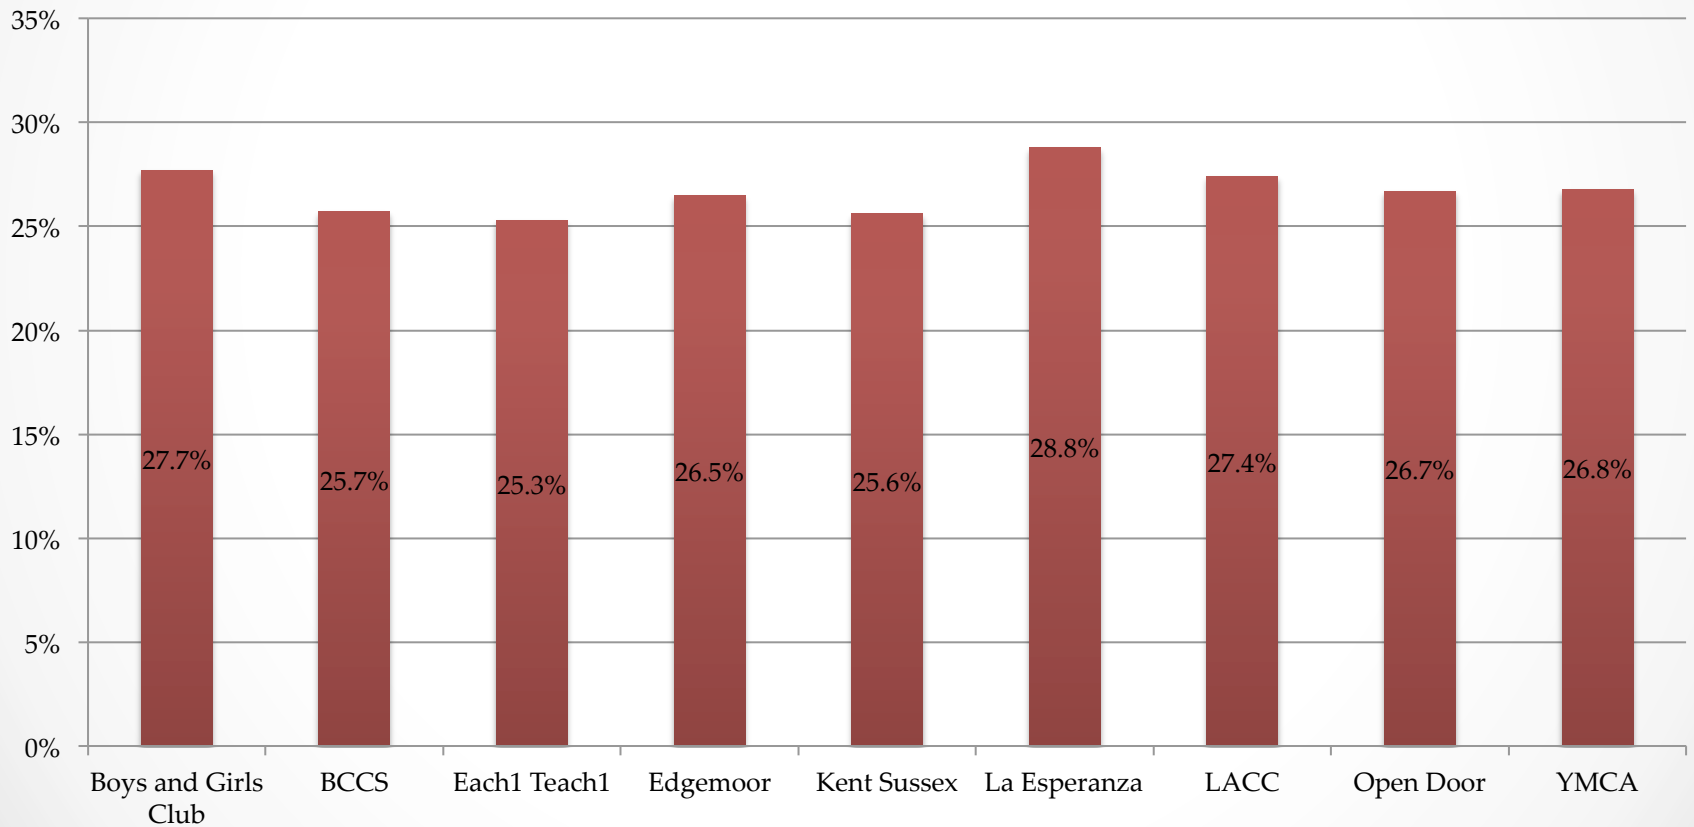

# Baseline Data

- 1. Why is baseline data Important?
- 2. National Outcome Measure (NOM)
- 3. The sources for the data.

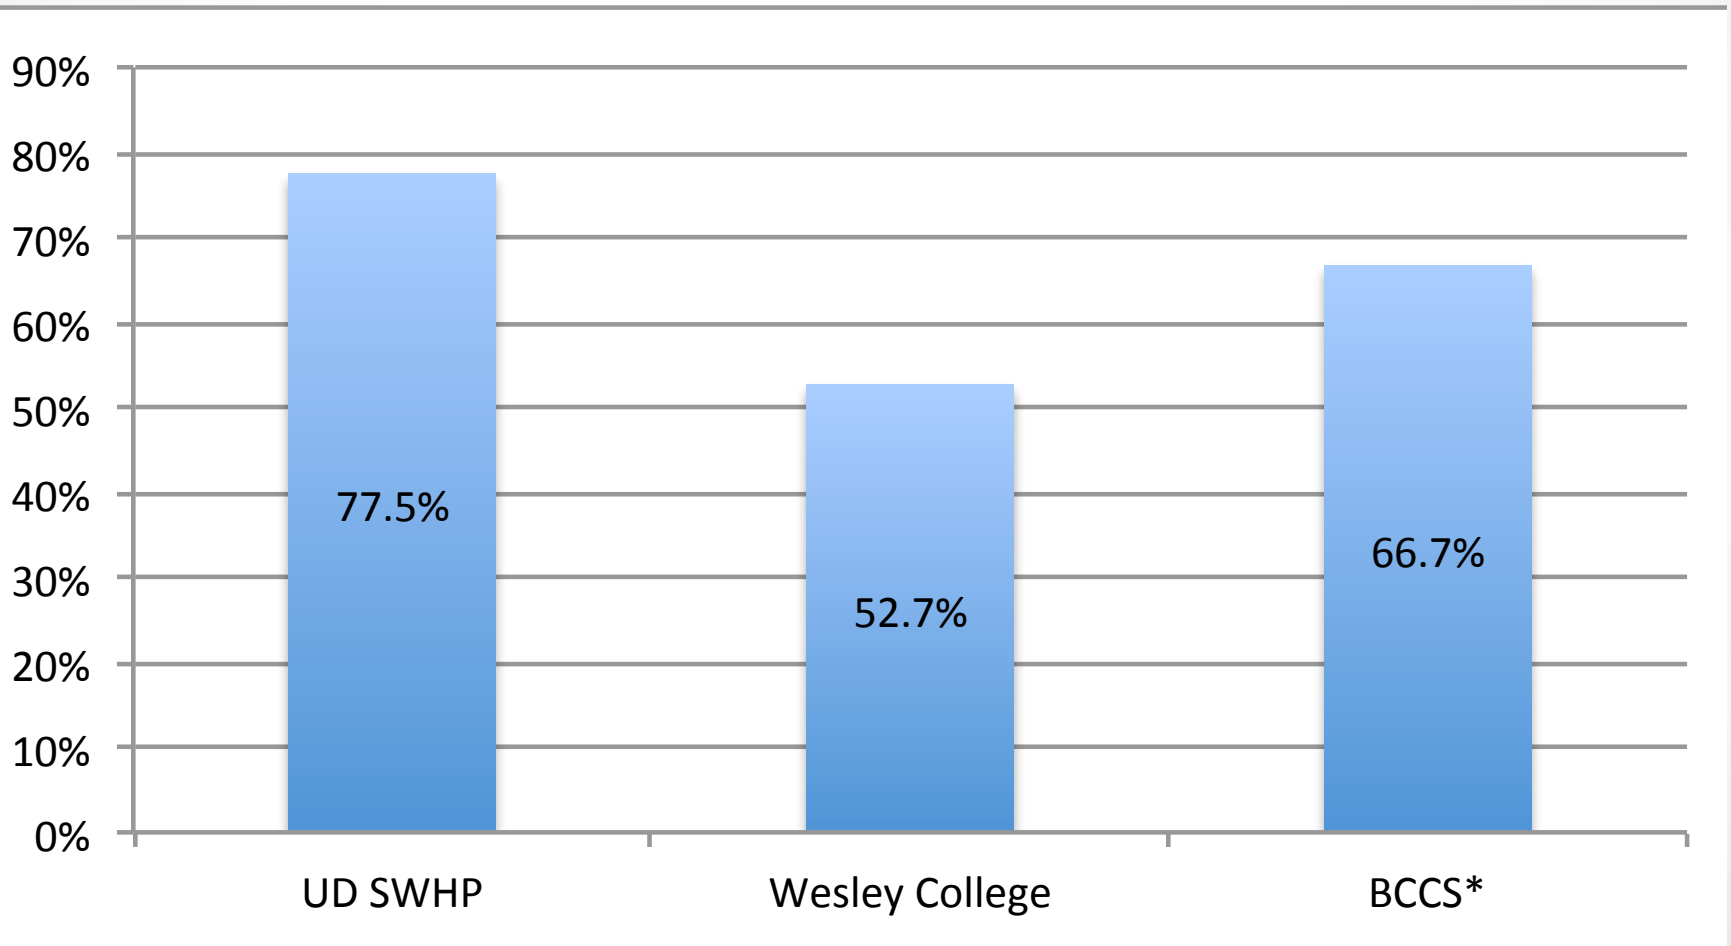

# National Outcome Measures (NOM)

- During the past 30 days, on how many days did you drink one or more drinks of an alcoholic beverage?
- How much do people risk harming themselves physically and in other ways when they have five or more drinks of an alcoholic beverage once or twice a week?

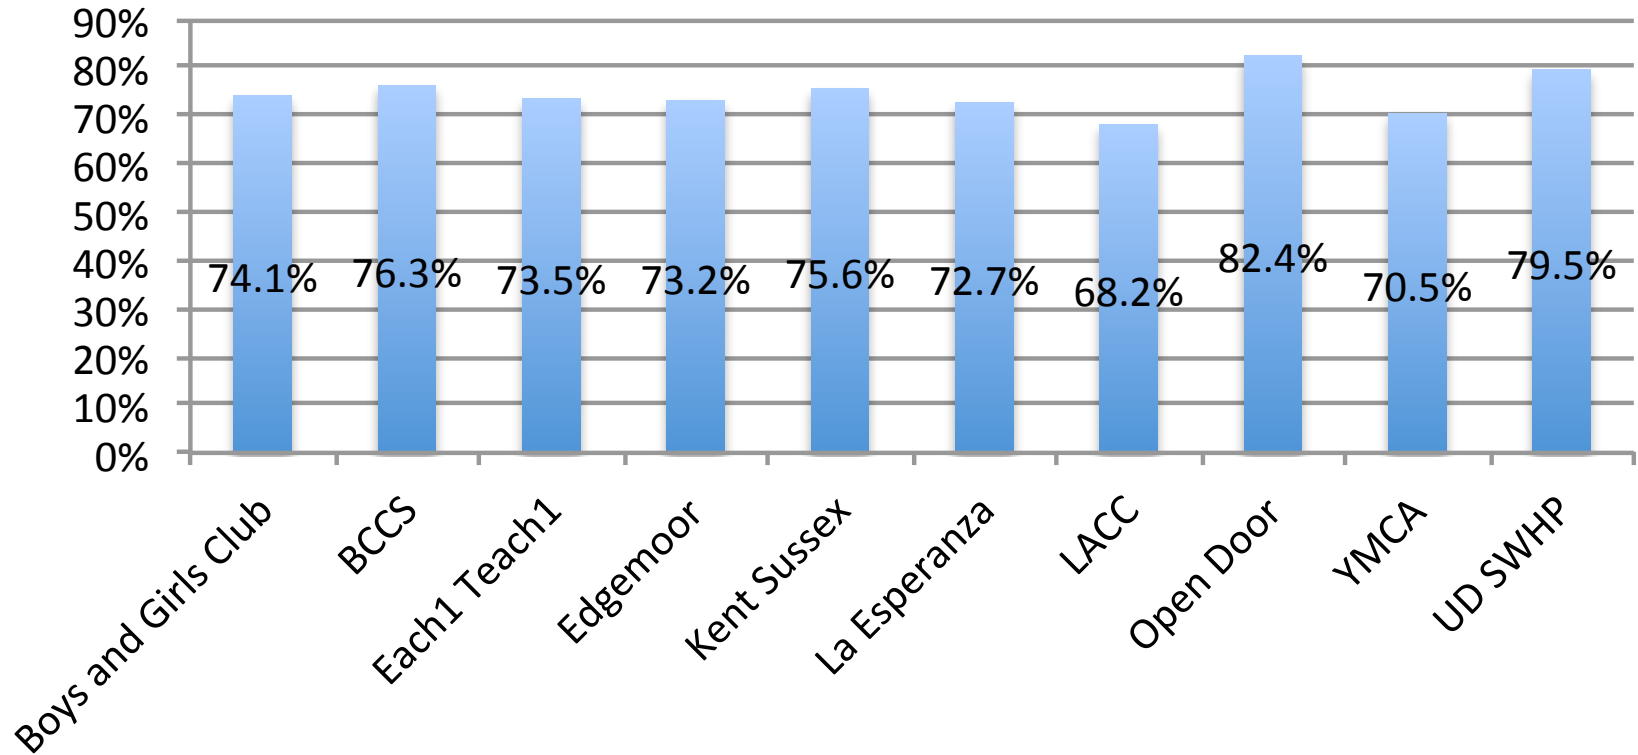

# Underage use of alcohol: Past 30 day use

# Use of alcohol: Past 30 days use

## Perceive great or moderate risk when consuming 5 or more drinks a week

# Sources for the Data

- Delaware School Survey of 8<sup>th</sup> and 11<sup>th</sup> graders, April 2012.
- Annual National Survey on Drug Use and Health (NSDUH) 2012 for ages 18-25.
- College Risk Behavior Survey (samples of undergrads at the University of Delaware and at Wesley College).
